FINDINGS

Pub. L. 109-162, title II, § 201, Jan. 5, 2006, 119 Stat. 2993, provided that: "Congress finds the following:

"(1) Nearly 1/3 of American women report physical or sexual abuse by a husband or boyfriend at some point in their lives.

"(2) According to the National Crime Victimization Survey, 248,000 Americans 12 years of age and older were raped or sexually assaulted in 2002.

"(3) Rape and sexual assault in the United States is estimated to cost \$127,000,000,000 per year, including—

"(A) lost productivity;

"(B) medical and mental health care;

"(C) police and fire services;

"(D) social services;

"(E) loss of and damage to property; and

"(F) reduced quality of life.

"(4) Nonreporting of sexual assault in rural areas is a particular problem because of the high rate of non-stranger sexual assault.

"(5) Geographic isolation often compounds the problems facing sexual assault victims. The lack of anonymity and accessible support services can limit opportunities for justice for victims.

"(6) Domestic elder abuse is primarily family abuse. The National Elder Abuse Incidence Study found that the perpetrator was a family member in 90 percent of cases.

"(7) Barriers for older victims leaving abusive relationships include—

"(A) the inability to support themselves;

"(B) poor health that increases their dependence on the abuser;

"(C) fear of being placed in a nursing home; and

"(D) ineffective responses by domestic abuse programs and law enforcement.

"(8) Disabled women comprise another vulnerable population with unmet needs. Women with disabilities are more likely to be the victims of abuse and violence than women without disabilities because of their increased physical, economic, social, or psychological dependence on others.

"(9) Many women with disabilities also fail to report the abuse, since they are dependent on their abusers and fear being abandoned or institutionalized.

"(10) Of the 598 battered women's programs surveyed—

"(A) only 35 percent of these programs offered disability awareness training for their staff; and

"(B) only 16 percent dedicated a staff member to provide services to women with disabilities.

"(11) Problems of domestic violence are exacerbated for immigrants when spouses control the immigration status of their family members, and abusers use threats of refusal to file immigration papers and threats to deport spouses and children as powerful tools to prevent battered immigrant women from seeking help, trapping battered immigrant women in violent homes because of fear of deportation.

"(12) Battered immigrant women who attempt to flee abusive relationships may not have access to bilingual shelters or bilingual professionals, and face restrictions on public or financial assistance. They may also lack assistance of a certified interpreter in court, when reporting complaints to the police or a

9-1-1 operator, or even in acquiring information about their rights and the legal system.

“(13) More than 500 men and women call the National Domestic Violence Hotline every day to get immediate, informed, and confidential assistance to help deal with family violence.

“(14) The National Domestic Violence Hotline service is available, toll-free, 24 hours a day and 7 days a week, with bilingual staff, access to translators in 150 languages, and a TTY line for the hearing-impaired.

“(15) With access to over 5,000 shelters and service providers across the United States, Puerto Rico, and the United States Virgin Islands, the National Domestic Violence Hotline provides crisis intervention and immediately connects callers with sources of help in their local community.

“(16) Approximately 60 percent of the callers indicate that calling the Hotline is their first attempt to address a domestic violence situation and that they have not called the police or any other support services.

“(17) Between 2000 and 2003, there was a 27 percent increase in call volume at the National Domestic Violence Hotline.

“(18) Improving technology infrastructure at the National Domestic Violence Hotline and training advocates, volunteers, and other staff on upgraded technology will drastically increase the Hotline’s ability to answer more calls quickly and effectively.”

Pub. L. 109-162, title III, §301, Jan. 5, 2006, 119 Stat. 3003, provided that: “Congress finds the following:

“(1) Youth, under the age of 18, account for 67 percent of all sexual assault victimizations reported to law enforcement officials.

“(2) The Department of Justice consistently finds that young women between the ages of 16 and 24 experience the highest rate of non-fatal intimate partner violence.

“(3) In 1 year, over 4,000 incidents of rape or sexual assault occurred in public schools across the country.

“(4) Young people experience particular obstacles to seeking help. They often do not have access to money, transportation, or shelter services. They must overcome issues such as distrust of adults, lack of knowledge about available resources, or pressure from peers and parents.

“(5) A needs assessment on teen relationship abuse for the State of California, funded by the California Department of Health Services, identified a desire for confidentiality and confusion about the law as 2 of the most significant barriers to young victims of domestic and dating violence seeking help.

“(6) Only one State specifically allows for minors to petition the court for protection orders.

“(7) Many youth are involved in dating relationships, and these relationships can include the same kind of domestic violence and dating violence seen in the adult population. In fact, more than 40 percent of all incidents of domestic violence involve people who are not married.

“(8) 40 percent of girls ages 14 to 17 report knowing someone their age who has been hit or beaten by a boyfriend, and 13 percent of college women report being stalked.

“(9) Of college women who said they had been the victims of rape or attempted rape, 12.8 percent of completed rapes, 35 percent of attempted rapes, and 22.9 percent of threatened rapes took place on a date. Almost 60 percent of the completed rapes that occurred on campus took place in the victim’s residence.

“(10) According to a 3-year study of student-athletes at 10 Division I universities, male athletes made up only 3.3 percent of the general male university population, but they accounted for 19 percent of the students reported for sexual assault and 35 percent of domestic violence perpetrators.”

§ 13942. Confidentiality of communications between sexual assault or domestic violence victims and their counselors

(a) Study and development of model legislation

The Attorney General shall—

(1) study and evaluate the manner in which the States have taken measures to protect the confidentiality of communications between sexual assault or domestic violence victims and their therapists or trained counselors;

(2) develop model legislation that will provide the maximum protection possible for the confidentiality of such communications, within any applicable constitutional limits, taking into account the following factors:

(A) the danger that counseling programs for victims of sexual assault and domestic violence will be unable to achieve their goal of helping victims recover from the trauma associated with these crimes if there is no assurance that the records of the counseling sessions will be kept confidential;

(B) consideration of the appropriateness of an absolute privilege for communications between victims of sexual assault or domestic violence and their therapists or trained counselors, in light of the likelihood that such an absolute privilege will provide the maximum guarantee of confidentiality but also in light of the possibility that such an absolute privilege may be held to violate the rights of criminal defendants under the Federal or State constitutions by denying them the opportunity to obtain exculpatory evidence and present it at trial; and

(C) consideration of what limitations on the disclosure of confidential communications between victims of these crimes and their counselors, short of an absolute privilege, are most likely to ensure that the counseling programs will not be undermined, and specifically whether no such disclosure should be allowed unless, at a minimum, there has been a particularized showing by a criminal defendant of a compelling need for records of such communications, and adequate procedural safeguards are in place to prevent unnecessary or damaging disclosures; and

(3) prepare and disseminate to State authorities the findings made and model legislation developed as a result of the study and evaluation.

(b) Report and recommendations

Not later than the date that is 1 year after September 13, 1994, the Attorney General shall report to the Congress—

(2) recommendations based on the findings on the need for and appropriateness of further action by the Federal Government.

(c) Review of Federal evidentiary rules

The Judicial Conference of the United States shall evaluate and report to Congress its views on whether the Federal Rules of Evidence should be amended, and if so, how they should be amended, to guarantee that the confidentiality

of communications between sexual assault victims and their therapists or trained counselors will be adequately protected in Federal court proceedings.

This part was, in the original, subtitle M of title IV of Pub. L. 103-322, as added by Pub. L. 109-162, and has been redesignated as part L of this subchapter for purposes of codification.

§ 14043d. Findings

Congress finds that—

(1) the former United States Advisory Board on Child Abuse suggests that domestic violence may be the single major precursor to child abuse and neglect fatalities in this country;

(2) studies suggest that as many as 10,000,000 children witness domestic violence every year;

(3) studies suggest that among children and teenagers, recent exposure to violence in the home was a significant factor in predicting a child’s violent behavior;

(4) a study by the Nurse-Family Partnership found that children whose parents did not participate in home visitation programs that provided coaching in parenting skills, advice and support, were almost 5 times more likely to be abused in their first 2 years of life;

(5) a child’s exposure to domestic violence seems to pose the greatest independent risk for being the victim of any act of partner violence as an adult;

(6) children exposed to domestic violence are more likely to believe that using violence is an effective means of getting one’s needs met and managing conflict in close relationships;

(7) children exposed to abusive parenting, harsh or erratic discipline, or domestic violence are at increased risk for juvenile crime; and

(8) in a national survey of more than 6,000 American families, 50 percent of men who frequently assaulted their wives also frequently abused their children.

(Pub. L. 103-322, title IV, § 41301, as added Pub. L. 109-162, title IV, § 401, Jan. 5, 2006, 119 Stat. 3017.)

§ 14043d-1. Purpose

The purpose of this part is to—

(1) prevent crimes involving violence against women, children, and youth;

(2) increase the resources and services available to prevent violence against women, children, and youth;

(3) reduce the impact of exposure to violence in the lives of children and youth so that the intergenerational cycle of violence is interrupted;

(4) develop and implement education and services programs to prevent children in vulnerable families from becoming victims or perpetrators of domestic violence, dating violence, sexual assault, or stalking;

(5) promote programs to ensure that children and youth receive the assistance they need to end the cycle of violence and develop mutually respectful, nonviolent relationships; and

(6) encourage collaboration among community-based organizations and governmental agencies serving children and youth, providers of health and mental health services and providers of domestic violence, dating violence, sexual assault, and stalking victim services to prevent violence against women and children.

PART M—ADDRESSING THE HOUSING NEEDS OF VICTIMS OF DOMESTIC VIOLENCE, DATING VIOLENCE, SEXUAL ASSAULT, AND STALKING

CODIFICATION

This part was, in the original, subtitle N of title IV of Pub. L. 103-322, as added by Pub. L. 109-162, and has been redesignated as part M of this subchapter for purposes of codification.

§ 14043e. Findings

Congress finds that:

(1) There is a strong link between domestic violence and homelessness. Among cities surveyed, 44 percent identified domestic violence as a primary cause of homelessness.

(2) Ninety-two percent of homeless women have experienced severe physical or sexual abuse at some point in their lives. Of all homeless women and children, 60 percent had been abused by age 12, and 63 percent have been victims of intimate partner violence as adults.

(3) Women and families across the country are being discriminated against, denied access to, and even evicted from public and subsidized housing because of their status as victims of domestic violence.

(4) A recent survey of legal service providers around the country found that these providers have responded to almost 150 documented eviction cases in the last year alone where the tenant was evicted because of the domestic violence crimes committed against her. In addition, nearly 100 clients were denied housing because of their status as victims of domestic violence.

(5) Women who leave their abusers frequently lack adequate emergency shelter options. The lack of adequate emergency options for victims presents a serious threat to their safety and the safety of their children. Requests for emergency shelter by homeless women with children increased by 78 percent of United States cities surveyed in 2004. In the same year, 32 percent of the requests for shelter by homeless families went unmet due to the lack of available emergency shelter beds.

(6) The average stay at an emergency shelter is 60 days, while the average length of time it takes a homeless family to secure housing is 6 to 10 months.

(7) Victims of domestic violence often return to abusive partners because they cannot find long-term housing.

(8) There are not enough Federal housing rent vouchers available to accommodate the number of people in need of long-term housing. Some people remain on the waiting list for Federal housing rent vouchers for years, while some lists are closed.

(9) Transitional housing resources and services provide an essential continuum between emergency shelter provision and independent

living. A majority of women in transitional housing programs stated that had these programs not existed, they would have likely gone back to abusive partners.

(10) Because abusers frequently manipulate finances in an effort to control their partners, victims often lack steady income, credit history, landlord references, and a current address, all of which are necessary to obtain long-term permanent housing.

(11) Victims of domestic violence in rural areas face additional barriers, challenges, and unique circumstances, such as geographical isolation, poverty, lack of public transportation systems, shortages of health care providers, under-insurance or lack of health insurance, difficulty ensuring confidentiality in small communities, and decreased access to many resources (such as advanced education, job opportunities, and adequate childcare).

(12) Congress and the Secretary of Housing and Urban Development have recognized in recent years that families experiencing domestic violence have unique needs that should be addressed by those administering the Federal housing programs.

§ 14043e-1. Purpose

The purpose of this part is to reduce domestic violence, dating violence, sexual assault, and stalking, and to prevent homelessness by—

(1) protecting the safety of victims of domestic violence, dating violence, sexual assault, and stalking who reside in homeless shelters, public housing, assisted housing, tribally designated housing, or other emergency, transitional, permanent, or affordable housing, and ensuring that such victims have meaningful access to the criminal justice system without jeopardizing such housing;

(2) creating long-term housing solutions that develop communities and provide sustainable living solutions for victims of domestic violence, dating violence, sexual assault, and stalking;

(3) building collaborations among victim service providers, homeless service providers, housing providers, and housing agencies to provide appropriate services, interventions, and training to address the housing needs of victims of domestic violence, dating violence, sexual assault, and stalking; and

(4) enabling public and assisted housing agencies, tribally designated housing entities, private landlords, property management companies, and other housing providers and agencies to respond appropriately to domestic violence, dating violence, sexual assault, and stalking, while maintaining a safe environment for all housing residents.

(Pub. L. 103-322, title IV, § 41402, as added Pub. L. 109-162, title VI, § 601, Jan. 5, 2006, 119 Stat. 3031.)

Participants in State Police Corps programs shall be selected on a competitive basis by each State under regulations prescribed by the Director.

(A) be a citizen of the United States or an alien lawfully admitted for permanent residence in the United States;

(B) meet the requirements for admission as a trainee of the State or local police force to which the participant will be assigned pursuant to section 14099(5) of this title, including achievement of satisfactory scores on any applicable examination, except that failure to meet the age requirement for a trainee of the State or local police shall not disqualify the applicant if the applicant will be of sufficient age upon completing an undergraduate course of study;

(C) possess the necessary mental and physical capabilities and emotional characteristics to discharge effectively the duties of a law enforcement officer;

(D) be of good character and demonstrate sincere motivation and dedication to law enforcement and public service;

(ii) Clause (i) shall not be construed to preclude counting a participant's previous period of law enforcement experience for purposes other than satisfaction of the requirements of section 14098 of this title, such as for purposes of determining such a participant's pay and other benefits, rank, and tenure.

(3) It is the intent of this part that there shall be no more than 20,000 participants in each graduating class. The Director shall approve State plans providing in the aggregate for such enrollment of applicants as shall assure, as nearly as possible, annual graduating classes of 20,000. In a year in which applications are received in a number greater than that which will produce, in the judgment of the Director, a graduating class of more than 20,000, the Director shall, in deciding which applications to grant, give preference to those who will be participating in State plans that provide law enforcement personnel to areas of greatest need.

(c) Recruitment of minorities

(1) A participant in a State Police Corps program who requests a leave of absence from educational study, training or service for a period not to exceed 1 year (or 18 months in the aggregate in the event of multiple requests) due to temporary physical or emotional disability shall be granted such leave of absence by the State.

(2) A participant who requests a leave of absence from educational study, training or service for a period not to exceed 1 year (or 18 months in the aggregate in the event of multiple requests) for any reason other than those listed in paragraph (1) may be granted such leave of absence by the State.

(3) A participant who requests a leave of absence from educational study or training for a

§ 14097. Police Corps training

(1) The Director shall establish programs of training for Police Corps participants. Such programs may be carried out at up to 3 training centers established for this purpose and administered by the Director, or by contracting with existing State training facilities. (c) Further training

The Police Corps training authorized in this section is intended to serve as basic law enforcement training but not to exclude further training of participants by the State and local authorities to which they will be assigned. Each State plan approved by the Director under section 14099¹ of this title shall include assurances that following completion of a participant's course of education each participant shall receive appropriate additional training by the State or local authority to which the participant is assigned. The time spent by a participant in such additional training, but not the time spent in Police Corps training, shall be counted toward fulfillment of the participant's 4-year service obligation.

(d) Course of training

The training sessions at training centers established under this section shall be designed to

Section 14099 of this title, referred to in subsec. (c), was in the original "section 10", and was translated as reading "section 200110", meaning section 200110 of Pub. L. 103-322, to reflect the probable intent of Congress, because Pub. L. 103-322 does not contain a section 10, and section 14099 of this title relates to requirements for State Police Corps plans.

AMENDMENTS

2002—Subsec. (f). Pub. L. 107-273 substituted "\$400" for "\$250".

1998—Subsec. (b). Pub. L. 105-277, §138(a)(1), added subsec. (b) and struck out heading and text of former subsec. (b). Text read as follows: "A participant in a State Police Corps program shall attend two 8-week training sessions at a training center, one during the summer following completion of sophomore year and one during the summer following completion of junior year. If a participant enters the program after sophomore year, the participant shall complete 16 weeks of training at times determined by the Director."

Subsec. (c). Pub. L. 105-277, §138(a)(2), substituted "The Police Corps" for "The 16 weeks of Police Corps".

Upon satisfactory completion of the participant's course of education and training program established in section 14097 of this title and meeting the requirements of the police force to which the participant is assigned, a participant shall be sworn in as a member of the police force to which the participant is assigned pursuant to the State Police Corps plan, and shall serve for 4 years as a member of that police force.

(b) Rights and responsibilities

A participant shall have all of the rights and responsibilities of and shall be subject to all rules and regulations applicable to other members of the police force of which the participant is a member, including those contained in applicable agreements with labor organizations and those provided by State and local law.

(c) Discipline

If the police force of which the participant is a member subjects the participant to discipline such as would preclude the participant's com-

pleting 4 years of service, and result in denial of educational assistance under section 14095 of this title, the Director may, upon a showing of good cause, permit the participant to complete the service obligation in an equivalent alternative law enforcement service and, if such service is satisfactorily completed, section 14095(d)(1)(B)(iii) of this title shall not apply.

(d) Layoffs

If the police force of which the participant is a member lays off the participant such as would preclude the participant's completing 4 years of service, and result in denial of educational assistance under section 14095 of this title, the Director may permit the participant to complete the service obligation in an equivalent alternative law enforcement service and, if such service is satisfactorily completed, section 14095(d)(1)(B)(iii) of this title shall not apply.

(A) there is the greatest need for additional law enforcement personnel; and

(5) provide that to the extent feasible, a participant's assignment shall be made at the time the participant is accepted into the program, subject to change—

(A) prior to commencement of a participant's fourth year of undergraduate study, under such circumstances as the plan may specify; and

(B) from commencement of a participant's fourth year of undergraduate study until completion of 4 years of police service by participant, only for compelling reasons or to meet the needs of the State Police Corps program and only with the consent of the participant;

(6) provide that no participant shall be assigned to serve with a local police force—

(A) whose size has declined by more than 5 percent since June 21, 1989; or

(B) which has members who have been laid off but not retired;

(7) provide that participants shall be placed and to the extent feasible kept on community and preventive patrol;

(8) ensure that participants will receive effective training and leadership;

(9) provide that the State may decline to offer a participant an appointment following completion of Federal training, or may remove a participant from the Police Corps program at any time, only for good cause (including failure to make satisfactory progress in a course of educational study) and after following reasonable review procedures stated in the plan; and

(a) Publication of quality assurance and proficiency testing standards

(1)(A) Not later than 180 days after September 13, 1994, the Director of the Federal Bureau of Investigation shall appoint an advisory board on DNA quality assurance methods from among nominations proposed by the head of the National Academy of Sciences and professional societies of crime laboratory officials.

(B) The advisory board shall include as members scientists from State, local, and private forensic laboratories, molecular geneticists and population geneticists not affiliated with a forensic laboratory, and a representative from the National Institute of Standards and Technology.

(C) The advisory board shall develop, and if appropriate, periodically revise, recommended standards for quality assurance, including standards for testing the proficiency of forensic laboratories, and forensic analysts, in conducting analyses of DNA.

(2) The Director of the Federal Bureau of Investigation, after taking into consideration such recommended standards, shall issue (and revise from time to time) standards for quality assurance, including standards for testing the proficiency of forensic laboratories, and forensic analysts, in conducting analyses of DNA.

(3) The standards described in paragraphs (1) and (2) shall specify criteria for quality assurance and proficiency tests to be applied to the various types of DNA analyses used by forensic laboratories. The standards shall also include a system for grading proficiency testing performance to determine whether a laboratory is performing acceptably.

(4) Until such time as the advisory board has made recommendations to the Director of the Federal Bureau of Investigation and the Director has acted upon those recommendations, the quality assurance guidelines adopted by the technical working group on DNA analysis methods shall be deemed the Director's standards for purposes of this section.

(b) Administration of advisory board

(1) For administrative purposes, the advisory board appointed under subsection (a) of this section shall be considered an advisory board to the Director of the Federal Bureau of Investigation.

(2) Section 14 of the Federal Advisory Committee Act (5 U.S.C. App.) shall not apply with respect to the advisory board appointed under subsection (a) of this section.

(3) The DNA advisory board established under this section shall be separate and distinct from any other advisory board administered by the FBI, and is to be administered separately.

(4) The board shall cease to exist on the date 5 years after the initial appointments are made to the board, unless the existence of the board is extended by the Director of the Federal Bureau of Investigation.

(c) Proficiency testing program

(1) Not later than 1 year after the effective date of this Act,¹ the Director of the National Institute of Justice shall certify to the Committees on the Judiciary of the House and Senate that—

(A) the Institute has entered into a contract with, or made a grant to, an appropriate entity for establishing, or has taken other appropriate action to ensure that there is established, not later than 2 years after September 13, 1994, a blind external proficiency testing program for DNA analyses, which shall be available to public and private laboratories performing forensic DNA analyses;

(B) a blind external proficiency testing program for DNA analyses is already readily available to public and private laboratories performing forensic DNA analyses; or

(C) it is not feasible to have blind external testing for DNA forensic analyses.

(2) As used in this subsection, the term “blind external proficiency test” means a test that is presented to a forensic laboratory through a second agency and appears to the analysts to involve routine evidence.

(3) Notwithstanding any other provision of law, the Attorney General shall make available to the Director of the National Institute of Justice during the first fiscal year in which funds are distributed under this subtitle up to \$250,000 from the funds available under part X of Title I of the Omnibus Crime Control and Safe Streets Act of 1968 [42 U.S.C. 3796kk et seq.] to carry out this subsection.

SENSE OF CONGRESS REGARDING THE OBLIGATION OF GRANTEE STATES TO ENSURE ACCESS TO POST-CONVICTION DNA TESTING AND COMPETENT COUNSEL IN CAPITAL CASES

Pub. L. 106-561, § 4, Dec. 21, 2000, 114 Stat. 2791, provided that:

“(a) FINDINGS.—Congress finds that—

“(1) over the past decade, deoxyribonucleic acid testing (referred to in this section as ‘DNA testing’) has emerged as the most reliable forensic technique for identifying criminals when biological material is left at a crime scene;

“(2) because of its scientific precision, DNA testing can, in some cases, conclusively establish the guilt or innocence of a criminal defendant;

“(3) in other cases, DNA testing may not conclusively establish guilt or innocence, but may have significant probative value to a finder of fact;

“(4) DNA testing was not widely available in cases tried prior to 1994;

“(5) new forensic DNA testing procedures have made it possible to get results from minute samples that could not previously be tested, and to obtain more informative and accurate results than earlier forms of forensic DNA testing could produce, resulting in some cases of convicted inmates being exonerated by new DNA tests after earlier tests had failed to produce definitive results;

“(6) DNA testing can and has resulted in the post-conviction exoneration of more than 75 innocent men and women, including some under sentence of death;

“(7) in more than a dozen cases, post-conviction DNA testing that has exonerated an innocent person has also enhanced public safety by providing evidence that led to the apprehension of the actual perpetrator;

“(8) experience has shown that it is not unduly burdensome to make DNA testing available to inmates in appropriate cases;

“(9) under current Federal and State law, it is difficult to obtain post-conviction DNA testing because of time limits on introducing newly discovered evidence;

“(10) the National Commission on the Future of DNA Evidence, a Federal panel established by the Department of Justice and comprised of law enforcement, judicial, and scientific experts, has urged that post-conviction DNA testing be permitted in the relatively small number of cases in which it is appropriate, notwithstanding procedural rules that could be invoked to preclude such testing, and notwithstanding the inability of an inmate to pay for the testing;

“(11) only a few States have adopted post-conviction DNA testing procedures;

“(12) States have received millions of dollars in DNA-related grants, and more funding is needed to improve State forensic facilities and to reduce the nationwide backlog of DNA samples from convicted offenders and crime scenes that need to be tested or retested using upgraded methods;

“(13) States that accept such financial assistance should not deny the promise of truth and justice for both sides of our adversarial system that DNA testing offers;

“(14) post-conviction DNA testing and other post-conviction investigative techniques have shown that innocent people have been sentenced to death in this country;

“(15) a constitutional error in capital cases is incompetent defense lawyers who fail to present important evidence that the defendant may have been innocent or does not deserve to be sentenced to death; and

“(16) providing quality representation to defendants facing loss of liberty or life is essential to fundamental due process and the speedy final resolution of judicial proceedings.

“(b) SENSE OF CONGRESS.—It is the sense of Congress that—

“(1) Congress should condition forensic science-related grants to a State or State forensic facility on the State’s agreement to ensure post-conviction DNA testing in appropriate cases; and

“(2) Congress should work with the States to improve the quality of legal representation in capital cases through the establishment of standards that

will assure the timely appointment of competent counsel with adequate resources to represent defendants in capital cases at each stage of the proceedings.”

Pub. L. 106-546, §11, Dec. 19, 2000, 114 Stat. 2735, enacted provisions substantially identical to those enacted by Pub. L. 106-561, §4, set out above.

(3) Easily removable

The term “easily removable”, with respect to a battery, means detachable or removable at the end of the life of the battery—

(A) from a consumer product by a consumer with the use of common household tools; or

(B) by a retailer of replacements for a battery used as the principal electrical power source for a vehicle.

(4) Mercuric-oxide battery

The term “mercuric-oxide battery” means a battery that uses a mercuric-oxide electrode.

(5) Rechargeable battery

The term “rechargeable battery”—

(A) means 1 or more voltaic or galvanic cells, electrically connected to produce electric energy, that is designed to be recharged for repeated uses; and

(B) includes any type of enclosed device or sealed container consisting of 1 or more such cells, including what is commonly called a battery pack (and in the case of a battery pack, for the purposes of the requirements of easy removability and labeling under section 14322 of this title, means the battery pack as a whole rather than each component individually); but

(C) does not include—

(i) a lead-acid battery used to start an internal combustion engine or as the principal electrical power source for a vehicle, such as an automobile, a truck, construction equipment, a motorcycle, a garden tractor, a golf cart, a wheelchair, or a boat;

(ii) a lead-acid battery used for load leveling or for storage of electricity generated by an alternative energy source, such as a solar cell or wind-driven generator;

(iii) a battery used as a backup power source for memory or program instruction storage, timekeeping, or any similar purpose that requires uninterrupted electrical power in order to function if the primary energy supply fails or fluctuates momentarily; or

(iv) a rechargeable alkaline battery.

(6) Rechargeable consumer product

The term “rechargeable consumer product”—

(A) means a product that, when sold at retail, includes a regulated battery as a primary energy supply, and that is primarily intended for personal or household use; but

(7) Regulated battery

The term “regulated battery” means a rechargeable battery that—

(A) contains a cadmium or a lead electrode or any combination of cadmium and lead electrodes; or

(B) contains other electrode chemistries and is the subject of a determination by the Administrator under section 14322(d) of this title.

the proper handling and disposal of used regulated batteries and rechargeable consumer products with nonremovable batteries.

(Pub. L. 104-142, § 4, May 13, 1996, 110 Stat. 1330.)

§ 14304. Enforcement

An order under subsection (a)(1) of this section shall become final unless, not later than 30 days after the order is served, a person named in the order requests a hearing on the record.

On receiving a request under subsection (d) of this section, the Administrator shall promptly conduct a hearing on the record.

(f) Subpoena power

In connection with any hearing on the record under this section, the Administrator may issue subpoenas for the attendance and testimony of witnesses and for the production of relevant papers, books, and documents.

(g) Continued violation after expiration of period for compliance

(1) purchased ready for sale to the ultimate consumer; and

(2) sold, offered for sale, or offered for promotional purposes without modification.

The preceding sentence shall not apply to a person—

(A) who is the importer of a battery covered by this chapter, and

SUBCHAPTER II—RECYCLING OF RECHARGEABLE BATTERIES

§ 14321. Purpose

The purpose of this subchapter is to facilitate the efficient recycling or proper disposal of used

nickel-cadmium rechargeable batteries, used small sealed lead-acid rechargeable batteries, other regulated batteries, and such rechargeable batteries in used consumer products, by—

(1) providing for uniform labeling requirements and streamlined regulatory requirements for regulated battery collection programs; and

(2) encouraging voluntary industry programs by eliminating barriers to funding the collection and recycling or proper disposal of used rechargeable batteries.

(Pub. L. 104-142, title I, § 102, May 13, 1996, 110 Stat. 1332.)

§ 14322. Rechargeable consumer products and labeling

(a) Prohibition

(1) In general

No person shall sell for use in the United States a regulated battery that is ready for retail sale or a rechargeable consumer product that is ready for retail sale, if such battery or product was manufactured on or after the date 12 months after May 13, 1996, unless the labeling requirements of subsection (b) of this section are met and, in the case of a regulated battery, the regulated battery—

(A) is easily removable from the rechargeable consumer product; or

(B) is sold separately.

(2) Application

Paragraph (1) does not apply to any of the following:

(A) The sale of a remanufactured product unit unless paragraph (1) applied to the sale of the unit when originally manufactured.

(B) The sale of a product unit intended for export purposes only.

(b) Labeling

Each regulated battery or rechargeable consumer product without an easily removable battery manufactured on or after the date that is 1 year after May 13, 1996, whether produced domestically or imported shall bear the following labels:

(1) 3 chasing arrows or a comparable recycling symbol.

(2)(A) On each regulated battery which is a nickel-cadmium battery, the chemical name or the abbreviation "Ni-Cd" and the phrase "BATTERY MUST BE RECYCLED OR DISPOSED OF PROPERLY."

(B) On each regulated battery which is a lead-acid battery, "Pb" or the words "LEAD", "RETURN", and "RECYCLE" and if the regulated battery is sealed, the phrase "BATTERY MUST BE RECYCLED."

(3) On each rechargeable consumer product containing a regulated battery that is not easily removable, the phrase "CONTAINS NICKEL-CADMIUM BATTERY. BATTERY MUST BE RECYCLED OR DISPOSED OF PROPERLY." or "CONTAINS SEALED LEAD BATTERY. BATTERY MUST BE RECYCLED.", as applicable.

(4) On the packaging of each rechargeable consumer product, and the packaging of each

regulated battery sold separately from such a product, unless the required label is clearly visible through the packaging, the phrase “CONTAINS NICKEL-CADMIUM BATTERY. BATTERY MUST BE RECYCLED OR DISPOSED OF PROPERLY.” or “CONTAINS SEALED LEAD BATTERY. BATTERY MUST BE RECYCLED.”, as applicable.

(c) Existing or alternative labeling

(1) Initial period

For a period of 2 years after May 13, 1996, regulated batteries, rechargeable consumer products containing regulated batteries, and rechargeable consumer product packages that are labeled in substantial compliance with subsection (b) of this section shall be deemed to comply with the labeling requirements of subsection (b) of this section.

(2) Certification

(A) In general

On application by persons subject to the labeling requirements of subsection (b) of this section or the labeling requirements promulgated by the Administrator under subsection (d) of this section, the Administrator shall certify that a different label meets the requirements of subsection (b) or (d) of this section, respectively, if the different label—

(i) conveys the same information as the label required under subsection (b) or (d) of this section, respectively; or

(ii) conforms with a recognized international standard that is consistent with the overall purposes of this subchapter.

(B) Constructive certification

Failure of the Administrator to object to an application under subparagraph (A) on the ground that a different label does not meet either of the conditions described in subparagraph (A)(i) or (ii) within 120 days after the date on which the application is made shall constitute certification for the purposes of this chapter.

(d) Rulemaking authority of Administrator

(1) In general

If the Administrator determines that other rechargeable batteries having electrode chemistries different from regulated batteries are toxic and may cause substantial harm to human health and the environment if discarded into the solid waste stream for land disposal or incineration, the Administrator may, with the advice and counsel of State regulatory authorities and manufacturers of rechargeable batteries and rechargeable consumer products, and after public comment—

(A) promulgate labeling requirements for the batteries with different electrode chemistries, rechargeable consumer products containing such batteries that are not easily removable batteries, and packaging for the batteries and products; and

(B) promulgate requirements for easy removability of regulated batteries from rechargeable consumer products designed to contain such batteries.

(2) Substantial similarity

The regulations promulgated under paragraph (1) shall be substantially similar to the requirements set forth in subsections (a) and (b) of this section.

(e) Uniformity

After the effective dates of a requirement set forth in subsection (a), (b), or (c) of this section or a regulation promulgated by the Administrator under subsection (d) of this section, no Federal agency, State, or political subdivision of a State may enforce any easy removability or environmental labeling requirement for a rechargeable battery or rechargeable consumer product that is not identical to the requirement or regulation.

(f) Exemptions

(1) In general

With respect to any rechargeable consumer product, any person may submit an application to the Administrator for an exemption from the requirements of subsection (a) of this section in accordance with the procedures under paragraph (2). The application shall include the following information:

(A) A statement of the specific basis for the request for the exemption.

(B) The name, business address, and telephone number of the applicant.

(2) Granting of exemption

Not later than 60 days after receipt of an application under paragraph (1), the Administrator shall approve or deny the application. On approval of the application the Administrator shall grant an exemption to the applicant. The exemption shall be issued for a period of time that the Administrator determines to be appropriate, except that the period shall not exceed 2 years. The Administrator shall grant an exemption on the basis of evidence supplied to the Administrator that the manufacturer has been unable to commence manufacturing the rechargeable consumer product in compliance with the requirements of this section and with an equivalent level of product performance without the product—

(A) posing a threat to human health, safety, or the environment; or

(B) violating requirements for approvals from governmental agencies or widely recognized private standard-setting organizations (including Underwriters Laboratories).

(3) Renewal of exemption

A person granted an exemption under paragraph (2) may apply for a renewal of the exemption in accordance with the requirements and procedures described in paragraphs (1) and (2). The Administrator may grant a renewal of such an exemption for a period of not more than 2 years after the date of the granting of the renewal.

(Pub. L. 104-142, title I, §103, May 13, 1996, 110 Stat. 1332.)

§ 14323. Requirements

(a) Batteries subject to certain regulations

The collection, storage, or transportation of used rechargeable batteries, batteries described

in section 14302(5)(C) of this title or in subchapter III of this chapter, and used rechargeable consumer products containing rechargeable batteries that are not easily removable rechargeable batteries, shall, notwithstanding any law of a State or political subdivision thereof governing such collection, storage, or transportation, be regulated under applicable provisions of the regulations promulgated by the Environmental Protection Agency at 60 Fed. Reg. 25492 (May 11, 1995), as effective on May 11, 1995, except as provided in paragraph (2) of subsection (b) of this section and except that—

(2) this section shall not apply to any lead acid battery managed under 40 CFR 266 subpart G or the equivalent requirements of an approved State program.

(b) Enforcement under Solid Waste Disposal Act

(1) Any person who fails to comply with the requirements imposed by subsection (a) of this section may be subject to enforcement under applicable provisions of the Solid Waste Disposal Act [42 U.S.C. 6901 et seq.].

(2) States may implement and enforce the requirements of subsection (a) of this section if the Administrator finds that—

(A) the State has adopted requirements that are identical to those referred to in subsection (a) of this section governing the collection, storage, or transportation of batteries referred to in subsection (a) of this section; and

(B) the State provides for enforcement of such requirements.

14402.	Restriction on use of Federal funds under health care programs.
14403.	Restriction on use of Federal funds under certain grant programs.
14404.	Restriction on use of Federal funds by advocacy programs.

§ 14401. Findings and purpose

(a) Findings

Congress finds the following:

(1) The Federal Government provides financial support for the provision of and payment for health care services, as well as for advocacy activities to protect the rights of individuals.

(2) Assisted suicide, euthanasia, and mercy killing have been criminal offenses throughout the United States and, under current law, it would be unlawful to provide services in support of such illegal activities.

(3) Because of recent legal developments, it may become lawful in areas of the United States to furnish services in support of such activities.

(4) Congress is not providing Federal financial assistance in support of assisted suicide, euthanasia, and mercy killing and intends that Federal funds not be used to promote such activities.

(b) Purpose

It is the principal purpose of this chapter to continue current Federal policy by providing explicitly that Federal funds may not be used to pay for items and services (including assistance) the purpose of which is to cause (or assist in causing) the suicide, euthanasia, or mercy killing of any individual.

(Pub. L. 105-12, § 2, Apr. 30, 1997, 111 Stat. 23.)

CHAPTER 139—VOLUNTEER PROTECTION

Sec.

- 14501. Findings and purpose.
- 14502. Preemption and election of State nonapplicability.
- 14503. Limitation on liability for volunteers.
- 14504. Liability for noneconomic loss.
- 14505. Definitions.

§ 14501. Findings and purpose

(a) Findings

The Congress finds and declares that—

(1) the willingness of volunteers to offer their services is deterred by the potential for liability actions against them;

(2) as a result, many nonprofit public and private organizations and governmental entities, including voluntary associations, social service agencies, educational institutions, and other civic programs, have been adversely affected by the withdrawal of volunteers from boards of directors and service in other capacities;

(3) the contribution of these programs to their communities is thereby diminished, resulting in fewer and higher cost programs than would be obtainable if volunteers were participating;

(4) because Federal funds are expended on useful and cost-effective social service programs, many of which are national in scope, depend heavily on volunteer participation, and represent some of the most successful public-private partnerships, protection of volunteerism through clarification and limitation of the personal liability risks assumed by the volunteer in connection with such participation is an appropriate subject for Federal legislation;

(5) services and goods provided by volunteers and nonprofit organizations would often otherwise be provided by private entities that operate in interstate commerce;

(6) due to high liability costs and unwarranted litigation costs, volunteers and nonprofit organizations face higher costs in purchasing insurance, through interstate insurance markets, to cover their activities; and

(7) clarifying and limiting the liability risk assumed by volunteers is an appropriate subject for Federal legislation because—

(A) of the national scope of the problems created by the legitimate fears of volunteers about frivolous, arbitrary, or capricious lawsuits;

(B) the citizens of the United States depend on, and the Federal Government expends funds on, and provides tax exemptions and other consideration to, numerous social programs that depend on the services of volunteers;

(C) it is in the interest of the Federal Government to encourage the continued operation of volunteer service organizations and contributions of volunteers because the Federal Government lacks the capacity to carry out all of the services provided by such organizations and volunteers; and

(D)(i) liability reform for volunteers, will promote the free flow of goods and services, lessen burdens on interstate commerce and uphold constitutionally protected due process rights; and

(ii) therefore, liability reform is an appropriate use of the powers contained in article 1, section 8, clause 3 of the United States Constitution, and the fourteenth amendment to the United States Constitution.

(b) Purpose

The purpose of this chapter is to promote the interests of social service program beneficiaries and taxpayers and to sustain the availability of programs, nonprofit organizations, and governmental entities that depend on volunteer contributions by reforming the laws to provide certain protections from liability abuses related to

volunteers serving nonprofit organizations and governmental entities.

(Pub. L. 105-19, § 2, June 18, 1997, 111 Stat. 218.)

EFFECTIVE DATE

Section 7 of Pub. L. 105-19 provided that:

“(a) IN GENERAL.—This Act [enacting this chapter] shall take effect 90 days after the date of enactment of this Act [June 18, 1997].

“(b) APPLICATION.—This Act applies to any claim for harm caused by an act or omission of a volunteer where that claim is filed on or after the effective date of this Act but only if the harm that is the subject of the claim or the conduct that caused such harm occurred after such effective date.”

SHORT TITLE

Section 1 of Pub. L. 105-19 provided that: “This Act [enacting this chapter] may be cited as the ‘Volunteer Protection Act of 1997.’”

§ 14502. Preemption and election of State nonapplicability

(a) Preemption

This chapter preempts the laws of any State to the extent that such laws are inconsistent with this chapter, except that this chapter shall not preempt any State law that provides additional protection from liability relating to volunteers or to any category of volunteers in the performance of services for a nonprofit organization or governmental entity.

(b) Election of State regarding nonapplicability

This chapter shall not apply to any civil action in a State court against a volunteer in which all parties are citizens of the State if such State enacts a statute in accordance with State requirements for enacting legislation—

- (1) citing the authority of this subsection;
- (2) declaring the election of such State that this chapter shall not apply, as of a date certain, to such civil action in the State; and
- (3) containing no other provisions.

(Pub. L. 105-19, § 3, June 18, 1997, 111 Stat. 219.)

§ 14503. Limitation on liability for volunteers

(a) Liability protection for volunteers

Except as provided in subsections (b) and (d) of this section, no volunteer of a nonprofit organization or governmental entity shall be liable for harm caused by an act or omission of the volunteer on behalf of the organization or entity if—

- (1) the volunteer was acting within the scope of the volunteer's responsibilities in the nonprofit organization or governmental entity at the time of the act or omission;
- (2) if appropriate or required, the volunteer was properly licensed, certified, or authorized by the appropriate authorities for the activities or practice in the State in which the harm occurred, where the activities were or practice was undertaken within the scope of the volunteer's responsibilities in the nonprofit organization or governmental entity;
- (3) the harm was not caused by willful or criminal misconduct, gross negligence, reckless misconduct, or a conscious, flagrant indifference to the rights or safety of the individual harmed by the volunteer; and
- (4) the harm was not caused by the volunteer operating a motor vehicle, vessel, aircraft, or

other vehicle for which the State requires the operator or the owner of the vehicle, craft, or vessel to—

- (A) possess an operator's license; or
- (B) maintain insurance.

(b) Concerning responsibility of volunteers to organizations and entities

Nothing in this section shall be construed to affect any civil action brought by any nonprofit organization or any governmental entity against any volunteer of such organization or entity.

(c) No effect on liability of organization or entity

Nothing in this section shall be construed to affect the liability of any nonprofit organization or governmental entity with respect to harm caused to any person.

(d) Exceptions to volunteer liability protection

If the laws of a State limit volunteer liability subject to one or more of the following conditions, such conditions shall not be construed as inconsistent with this section:

- (1) A State law that requires a nonprofit organization or governmental entity to adhere to risk management procedures, including mandatory training of volunteers.
- (2) A State law that makes the organization or entity liable for the acts or omissions of its volunteers to the same extent as an employer is liable for the acts or omissions of its employees.
- (3) A State law that makes a limitation of liability inapplicable if the civil action was brought by an officer of a State or local government pursuant to State or local law.
- (4) A State law that makes a limitation of liability applicable only if the nonprofit organization or governmental entity provides a financially secure source of recovery for individuals who suffer harm as a result of actions taken by a volunteer on behalf of the organization or entity. A financially secure source of recovery may be an insurance policy within specified limits, comparable coverage from a risk pooling mechanism, equivalent assets, or alternative arrangements that satisfy the State that the organization or entity will be able to pay for losses up to a specified amount. Separate standards for different types of liability exposure may be specified.

(e) Limitation on punitive damages based on actions of volunteers

(1) General rule

Punitive damages may not be awarded against a volunteer in an action brought for harm based on the action of a volunteer acting within the scope of the volunteer's responsibilities to a nonprofit organization or governmental entity unless the claimant establishes by clear and convincing evidence that the harm was proximately caused by an action of such volunteer which constitutes willful or criminal misconduct, or a conscious, flagrant indifference to the rights or safety of the individual harmed.

(2) Construction

Paragraph (1) does not create a cause of action for punitive damages and does not pre-

empt or supersede any Federal or State law to the extent that such law would further limit the award of punitive damages.

(f) Exceptions to limitations on liability

(1) In general

The limitations on the liability of a volunteer under this chapter shall not apply to any misconduct that—

(A) constitutes a crime of violence (as that term is defined in section 16 of title 18) or act of international terrorism (as that term is defined in section 2331 of title 18) for which the defendant has been convicted in any court;

(B) constitutes a hate crime (as that term is used in the Hate Crime Statistics Act (28 U.S.C. 534 note));

(C) involves a sexual offense, as defined by applicable State law, for which the defendant has been convicted in any court;

(D) involves misconduct for which the defendant has been found to have violated a Federal or State civil rights law; or

(E) where the defendant was under the influence (as determined pursuant to applicable State law) of intoxicating alcohol or any drug at the time of the misconduct.

(2) Rule of construction

Nothing in this subsection shall be construed to effect subsection (a)(3) or (e) of this section.

(Pub. L. 105–19, § 4, June 18, 1997, 111 Stat. 219.)

(b) Amount of liability

(1) In general

Each defendant who is a volunteer, shall be liable only for the amount of noneconomic loss allocated to that defendant in direct proportion to the percentage of responsibility of that defendant (determined in accordance with paragraph (2)) for the harm to the claimant with respect to which that defendant is liable. The court shall render a separate judgment against each defendant in an amount determined pursuant to the preceding sentence.

(2) Percentage of responsibility

For purposes of determining the amount of noneconomic loss allocated to a defendant who is a volunteer under this section, the trier of fact shall determine the percentage of responsibility of that defendant for the claimant's harm.

Congress finds that—

(1) both the Federal Bureau of Investigation and State criminal history record repositories maintain fingerprint-based criminal history records;

(2) these criminal history records are shared and exchanged for criminal justice purposes through a Federal-State program known as the Interstate Identification Index System;

(3) although these records are also exchanged for legally authorized, noncriminal justice uses, such as governmental licensing and employment background checks, the purposes for and procedures by which they are exchanged vary widely from State to State;

(4) an interstate and Federal-State compact is necessary to facilitate authorized interstate criminal history record exchanges for noncriminal justice purposes on a uniform basis, while permitting each State to effectuate its own dissemination policy within its own borders; and

(5) such a compact will allow Federal and State records to be provided expeditiously to

governmental and nongovernmental agencies that use such records in accordance with pertinent Federal and State law, while simultaneously enhancing the accuracy of the records and safeguarding the information contained therein from unauthorized disclosure or use.

SUBCHAPTER I—PROMOTION OF COMMERCIAL SPACE OPPORTUNITIES

§ 14711. Commercialization of Space Station

(a) Policy

The Congress declares that a priority goal of constructing the International Space Station is the economic development of Earth orbital space. The Congress further declares that free and competitive markets create the most efficient conditions for promoting economic development, and should therefore govern the economic development of Earth orbital space. The Congress further declares that the use of free market principles in operating, servicing, allocating the use of, and adding capabilities to the Space Station, and the resulting fullest possible engagement of commercial providers and participation of commercial users, will reduce Space Station operational costs for all partners and the Federal Government’s share of the United States burden to fund operations.

(b) Reports

(1) The Administrator shall deliver to the Committee on Science of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, within 90 days after October 28, 1998, a study that identifies and examines—

(A) the opportunities for commercial providers to play a role in International Space Station activities, including operation, use, servicing, and augmentation;

(B) the potential cost savings to be derived from commercial providers playing a role in each of these activities;

(C) which of the opportunities described in subparagraph (A) the Administrator plans to make available to commercial providers in fiscal years 1999 and 2000;

(D) the specific policies and initiatives the Administrator is advancing to encourage and facilitate these commercial opportunities; and

(E) the revenues and cost reimbursements to the Federal Government from commercial users of the Space Station.

(2) The Administrator shall deliver to the Committee on Science of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, within 180 days after October 28, 1998, an independently conducted market study that examines and evaluates potential industry interest in providing commercial goods and services for the operation, servicing, and augmentation of the International Space Station, and in the commercial use of the International Space Station. This study shall also include updates to the cost savings and revenue estimates made in the study described in paragraph (1) based on the external market assessment.

(3) The Administrator shall deliver to the Congress, no later than the submission of the President's annual budget request for fiscal year 2000, a report detailing how many proposals (whether solicited or not) the National Aeronautics and Space Administration received during calendar years 1997 and 1998 regarding commercial operation, servicing, utilization, or augmentation of the International Space Station, broken down by each of these four categories, and specifying how many agreements the National Aeronautics and Space Administration has entered into in response to these proposals, also broken down by these four categories.

(4) Each of the studies and reports required by paragraphs (1), (2), and (3) shall include consideration of the potential role of State governments as brokers in promoting commercial participation in the International Space Station program.

(Pub. L. 105-303, title I, § 101, Oct. 28, 1998, 112 Stat. 2845.)

SPACE STATION COMMERCIAL DEVELOPMENT DEMONSTRATION PROGRAM

Pub. L. 106-74, title IV, § 434, Oct. 20, 1999, 113 Stat. 1097, as amended by Pub. L. 106-391, title II, § 204, Oct. 30, 2000, 114 Stat. 1590, provided that:

“(a) PURPOSE.—The purpose of this section is to establish a demonstration regarding the commercial feasibility and economic viability of private sector business operations involving the International Space Station and its related infrastructure. The goal will be furthered by the early use of the International Space Station by United States commercial entities committing private capital to commercial enterprises on the International Space Station. In conjunction with this demonstration program, the National Aeronautics and Space Administration (NASA) shall establish and publish a price policy designed to eliminate price uncertainty for those planning to utilize the International Space Station and its related facilities for United States commercial use.

“(b) USE OF RECEIPTS FOR COMMERCIAL USE.—Any receipts collected by NASA from the commercial use of the International Space Station shall first be used to offset any costs incurred by NASA in support of the United States commercial use of the International Space Station. Any receipts collected in excess of the costs identified pursuant to the prior sentence may be retained by NASA for use without fiscal year limitation in promoting the commercial use of the International Space Station.

“(c) REPORT.—NASA shall submit an annual report to the Congress that identifies all receipts that are collected under this section, the use of the receipts and the status of the demonstration. NASA shall submit a final report on the status of the demonstration, including any recommendation for expansion, within 120 days

of the completion of the assembly of the International Space Station or the end of fiscal year 2002, whichever is earlier.

“(d) DEFINITIONS.—As used in this section, the term ‘United States commercial use’ means private commercial projects that are designed to benefit the United States through the sales of goods or services or the creation of jobs, or both.

“(e) TERMINATION.—The demonstration program established under this section shall apply to United States commercial use agreements that are entered into prior to the date of the completion of the International Space Station or the end of fiscal year 2002, whichever is earlier.”

§ 14712. Promotion of United States Global Positioning System standards

(a) Finding

The Congress finds that the Global Positioning System, including satellites, signal equipment, ground stations, data links, and associated command and control facilities, has become an essential element in civil, scientific, and military space development because of the emergence of a United States commercial industry which provides Global Positioning System equipment and related services.

(b) International cooperation

In order to support and sustain the Global Positioning System in a manner that will most effectively contribute to the national security, public safety, scientific, and economic interests of the United States, the Congress encourages the President to—

(1) ensure the operation of the Global Positioning System on a continuous worldwide basis free of direct user fees;

(2) enter into international agreements that promote cooperation with foreign governments and international organizations to—

(A) establish the Global Positioning System and its augmentations as an acceptable international standard; and

(B) eliminate any foreign barriers to applications of the Global Positioning System worldwide; and

(3) provide clear direction and adequate resources to the Assistant Secretary of Commerce for Communications and Information so that on an international basis the Assistant Secretary can—

(A) achieve and sustain efficient management of the electromagnetic spectrum used by the Global Positioning System; and

(B) protect that spectrum from disruption and interference.

(Pub. L. 105-303, title I, § 104, Oct. 28, 1998, 112 Stat. 2852.)

§ 14713. Acquisition of space science data

(a) Acquisition from commercial providers

The Administrator shall, to the extent possible and while satisfying the scientific or educational requirements of the National Aeronautics and Space Administration, and where appropriate, of other Federal agencies and scientific researchers, acquire, where cost effective, space science data from a commercial provider.

(b) Treatment of space science data as commercial item under acquisition laws

Acquisitions of space science data by the Administrator shall be carried out in accordance with applicable acquisition laws and regulations (including chapters 137 and 140 of title 10). For purposes of such law and regulations, space science data shall be considered to be a commercial item. Nothing in this subsection shall be construed to preclude the United States from acquiring, through contracts with commercial providers, sufficient rights in data to meet the needs of the scientific and educational community or the needs of other government activities.

(c) Definition

For purposes of this section, the term “space science data” includes scientific data concerning—

- (1) the elemental and mineralogical resources of the moon, asteroids, planets and their moons, and comets;
- (2) microgravity acceleration; and
- (3) solar storm monitoring.

(d) Safety standards

Nothing in this section shall be construed to prohibit the Federal Government from requiring compliance with applicable safety standards.

(e) Limitation

This section does not authorize the National Aeronautics and Space Administration to provide financial assistance for the development of commercial systems for the collection of space science data.

(Pub. L. 105-303, title I, §105, Oct. 28, 1998, 112 Stat. 2852.)

§ 14714. Administration of commercial space centers

The Administrator shall administer the Commercial Space Center program in a coordinated manner from National Aeronautics and Space Administration headquarters in Washington, D.C.

(Pub. L. 105-303, title I, §106, Oct. 28, 1998, 112 Stat. 2853.)

§ 14715. Sources of Earth Science data

(a) Acquisition

The Administrator shall, to the extent possible and while satisfying the scientific or educational requirements of the National Aeronautics and Space Administration, and where appropriate, of other Federal agencies and scientific researchers, acquire, where cost-effective, space-based and airborne Earth remote sensing data, services, distribution, and applications from a commercial provider.

(b) Treatment as commercial item under acquisition laws

Acquisitions by the Administrator of the data, services, distribution, and applications referred to in subsection (a) of this section shall be carried out in accordance with applicable acquisition laws and regulations (including chapters 137 and 140 of title 10). For purposes of such law and regulations, such data, services, distribution,

and applications shall be considered to be a commercial item. Nothing in this subsection shall be construed to preclude the United States from acquiring, through contracts with commercial providers, sufficient rights in data to meet the needs of the scientific and educational community or the needs of other government activities.

(c) Study

(1) The Administrator shall conduct a study to determine the extent to which the baseline scientific requirements of Earth Science can be met by commercial providers, and how the National Aeronautics and Space Administration will meet such requirements which cannot be met by commercial providers.

(2) The study conducted under this subsection shall—

(A) make recommendations to promote the availability of information from the National Aeronautics and Space Administration to commercial providers to enable commercial providers to better meet the baseline scientific requirements of Earth Science;

(B) make recommendations to promote the dissemination to commercial providers of information on advanced technology research and development performed by or for the National Aeronautics and Space Administration; and

(C) identify policy, regulatory, and legislative barriers to the implementation of the recommendations made under this subsection.

(3) The results of the study conducted under this subsection shall be transmitted to the Congress within 6 months after October 28, 1998.

(d) Safety standards

Nothing in this section shall be construed to prohibit the Federal Government from requiring compliance with applicable safety standards.

(e) Administration and execution

This section shall be carried out as part of the Commercial Remote Sensing Program at the Stennis Space Center.

(Pub. L. 105-303, title I, §107, Oct. 28, 1998, 112 Stat. 2853.)

CODIFICATION

Section is comprised of section 107 of Pub. L. 105-303. Subsec. (f) of section 107 of Pub. L. 105-303 amended sections 5621 and 5622 of Title 15, Commerce and Trade.

SUBCHAPTER II—FEDERAL ACQUISITION OF SPACE TRANSPORTATION SERVICES

§ 14731. Requirement to procure commercial space transportation services

(a) In general

Except as otherwise provided in this section, the Federal Government shall acquire space transportation services from United States commercial providers whenever such services are required in the course of its activities. To the maximum extent practicable, the Federal Government shall plan missions to accommodate the space transportation services capabilities of United States commercial providers.

(b) Exceptions

The Federal Government shall not be required to acquire space transportation services under

subsection (a) of this section if, on a case-by-case basis, the Administrator or, in the case of a national security issue, the Secretary of the Air Force, determines that—

- (1) a payload requires the unique capabilities of the Space Shuttle;
- (2) cost effective space transportation services that meet specific mission requirements would not be reasonably available from United States commercial providers when required;
- (3) the use of space transportation services from United States commercial providers poses an unacceptable risk of loss of a unique scientific opportunity;
- (4) the use of space transportation services from United States commercial providers is inconsistent with national security objectives;
- (5) the use of space transportation services from United States commercial providers is inconsistent with international agreements for international collaborative efforts relating to science and technology;
- (6) it is more cost effective to transport a payload in conjunction with a test or demonstration of a space transportation vehicle owned by the Federal Government; or
- (7) a payload can make use of the available cargo space on a Space Shuttle mission as a secondary payload, and such payload is consistent with the requirements of research, development, demonstration, scientific, commercial, and educational programs authorized by the Administrator.

Nothing in this section shall prevent the Administrator from planning or negotiating agreements with foreign entities for the launch of Federal Government payloads for international collaborative efforts relating to science and technology.

(c) Delayed effect

Subsection (a) of this section shall not apply to space transportation services and space transportation vehicles acquired or owned by the Federal Government before October 28, 1998, or with respect to which a contract for such acquisition or ownership has been entered into before October 28, 1998.

(d) Historical purposes

This section shall not be construed to prohibit the Federal Government from acquiring, owning, or maintaining space transportation vehicles solely for historical display purposes.

(Pub. L. 105-303, title II, §201, Oct. 28, 1998, 112 Stat. 2854.)

§ 14732. Acquisition of commercial space transportation services

(a) Treatment of commercial space transportation services as commercial item under acquisition laws

Acquisitions of space transportation services by the Federal Government shall be carried out in accordance with applicable acquisition laws and regulations (including chapters 137 and 140 of title 10). For purposes of such law and regulations, space transportation services shall be considered to be a commercial item.

(b) Safety standards

Nothing in this section shall be construed to prohibit the Federal Government from requiring compliance with applicable safety standards.

(Pub. L. 105-303, title II, §202, Oct. 28, 1998, 112 Stat. 2855.)

§ 14733. Shuttle privatization

(a) Policy and preparation

The Administrator shall prepare for an orderly transition from the Federal operation, or Federal management of contracted operation, of space transportation systems to the Federal purchase of commercial space transportation services for all nonemergency space transportation requirements for transportation to and from Earth orbit, including human, cargo, and mixed payloads. In those preparations, the Administrator shall take into account the need for short-term economies, as well as the goal of restoring the National Aeronautics and Space Administration's research focus and its mandate to promote the fullest possible commercial use of space. As part of those preparations, the Administrator shall plan for the potential privatization of the Space Shuttle program. Such plan shall keep safety and cost effectiveness as high priorities. Nothing in this section shall prohibit the National Aeronautics and Space Administration from studying, designing, developing, or funding upgrades or modifications essential to the safe and economical operation of the Space Shuttle fleet.

(b) Feasibility study

The Administrator shall conduct a study of the feasibility of implementing the recommendation of the Independent Shuttle Management Review Team that the National Aeronautics and Space Administration transition toward the privatization of the Space Shuttle. The study shall identify, discuss, and, where possible, present options for resolving, the major policy and legal issues that must be addressed before the Space Shuttle is privatized, including—

- (1) whether the Federal Government or the Space Shuttle contractor should own the Space Shuttle orbiters and ground facilities;
- (2) whether the Federal Government should indemnify the contractor for any third party liability arising from Space Shuttle operations, and, if so, under what terms and conditions;
- (3) whether payloads other than National Aeronautics and Space Administration payloads should be allowed to be launched on the Space Shuttle, how missions will be prioritized, and who will decide which mission flies and when;
- (4) whether commercial payloads should be allowed to be launched on the Space Shuttle and whether any classes of payloads should be made ineligible for launch consideration;
- (5) whether National Aeronautics and Space Administration and other Federal Government payloads should have priority over non-Federal payloads in the Space Shuttle launch assignments, and what policies should be developed to prioritize among payloads generally;

(6) whether the public interest requires that certain Space Shuttle functions continue to be performed by the Federal Government; and

(7) how much cost savings, if any, will be generated by privatization of the Space Shuttle.

(c) Report to Congress

Within 60 days after October 28, 1998, the National Aeronautics and Space Administration shall complete the study required under subsection (b) of this section and shall submit a report on the study to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science of the House of Representatives.

(Pub. L. 105-303, title II, §204, Oct. 28, 1998, 112 Stat. 2856.)

§ 14734. Use of excess intercontinental ballistic missiles

(a) In general

The Federal Government shall not—

(1) convert any missile described in subsection (c) of this section to a space transportation vehicle configuration; or

(2) transfer ownership of any such missile to another person, except as provided in subsection (b) of this section.

(b) Authorized Federal uses

(1) A missile described in subsection (c) of this section may be converted for use as a space transportation vehicle by the Federal Government if, except as provided in paragraph (2) and at least 30 days before such conversion, the agency seeking to use the missile as a space transportation vehicle transmits to the Committee on Armed Services and the Committee on Science of the House of Representatives, and to the Committee on Armed Services and the Committee on Commerce, Science, and Transportation of the Senate, a certification that the use of such missile—

(A) would result in cost savings to the Federal Government when compared to the cost of acquiring space transportation services from United States commercial providers;

(B) meets all mission requirements of the agency, including performance, schedule, and risk requirements;

(C) is consistent with international obligations of the United States; and

(D) is approved by the Secretary of Defense or his designee.

(2) The requirement under paragraph (1) that the certification described in that paragraph must be transmitted at least 30 days before conversion of the missile shall not apply if the Secretary of Defense determines that compliance with that requirement would be inconsistent with meeting immediate national security requirements.

(c) Missiles referred to

The missiles referred to in this section are missiles owned by the United States that—

(1) were formerly used by the Department of Defense for national defense purposes as intercontinental ballistic missiles; and

(2) have been declared excess to United States national defense needs and are in compliance with international obligations of the United States.

(Pub. L. 105-303, title II, §205, Oct. 28, 1998, 112 Stat. 2857; Pub. L. 106-65, div. A, title X, §1067(21), Oct. 5, 1999, 113 Stat. 775.)

AMENDMENTS

1999—Subsec. (b)(1). Pub. L. 106-65 substituted “transmits to the Committee on Armed Services” for “transmits to the Committee on National Security” in introductory provisions.

SUBCHAPTER III—COMMERCIAL REUSABLE IN-SPACE TRANSPORTATION

CODIFICATION

This subchapter was enacted as part of the Commercial Reusable In-Space Transportation Act of 2002, and also as part of the Department of Defense Appropriations Act, 2003, and not as part of the Commercial Space Act of 1998, which comprises subchapters I and II of this chapter.

§ 14751. Findings

Congress makes the following findings:

(1) It is in the national interest to encourage the production of cost-effective, in-space transportation systems, which would be built

and operated by the private sector on a commercial basis.

(2) The use of reusable in-space transportation systems will enhance performance levels of in-space operations, enhance efficient and safe disposal of satellites at the end of their useful lives, and increase the capability and reliability of existing ground-to-space launch vehicles.

(3) Commercial reusable in-space transportation systems will enhance the economic well-being and national security of the United States by reducing space operations costs for commercial and national space programs and by adding new space capabilities to space operations.

(4) Commercial reusable in-space transportation systems will provide new cost-effective space capabilities (including orbital transfers from low altitude orbits to high altitude orbits and return, the correction of erroneous satellite orbits, and the recovery, refurbishment, and refueling of satellites) and the provision of upper stage functions to increase ground-to-orbit launch vehicle payloads to geostationary and other high energy orbits.

(5) Commercial reusable in-space transportation systems can enhance and enable the space exploration of the United States by providing lower cost trajectory injection from earth orbit, transit trajectory control, and planet arrival deceleration to support potential National Aeronautics and Space Administration missions to Mars, Pluto, and other planets.

(6) Satellites stranded in erroneous earth orbit due to deficiencies in their launch represent substantial economic loss to the United States and present substantial concerns for the current backlog of national space assets.

(7) Commercial reusable in-space transportation systems can provide new options for alternative planning approaches and risk management to enhance the mission assurance of national space assets.

(8) Commercial reusable in-space transportation systems developed by the private sector can provide in-space transportation services to the National Aeronautics and Space Administration, the Department of Defense, the National Reconnaissance Office, and other agencies without the need for the United States to bear the cost of production of such systems.

(9) The availability of loan guarantees, with the cost of credit risk to the United States paid by the private-sector, is an effective means by which the United States can help qualifying private-sector companies secure otherwise unattainable private financing for the production of commercial reusable in-space transportation systems, while at the same time minimizing Government commitment and involvement in the development of such systems.

SHORT TITLE

For short title of this subchapter as the “Commercial Reusable In-Space Transportation Act of 2002”, see section 901 of Pub. L. 107-248, set out as a note under section 14701 of this title.

§ 14752. Loan guarantees for production of commercial reusable in-space transportation

(a) Authority to make loan guarantees

The Secretary may guarantee loans made to eligible United States commercial providers for purposes of producing commercial reusable in-space transportation services or systems.

(b) Eligible United States commercial providers

The Secretary shall prescribe requirements for the eligibility of United States commercial providers for loan guarantees under this section. Such requirements shall ensure that eligible providers are financially capable of undertaking a loan guaranteed under this section.

(c) Limitation on loans guaranteed

The Secretary may not guarantee a loan for a United States commercial provider under this section unless the Secretary determines that credit would not otherwise be reasonably available at the time of the guarantee for the commercial reusable in-space transportation service or system to be produced utilizing the proceeds of the loan.

(d) Credit subsidy

(1) Collection required

The Secretary shall collect from each United States commercial provider receiving a loan guarantee under this section an amount equal to the amount, as determined by the Secretary, to cover the cost, as defined in section 502(5) of the Federal Credit Reform Act of 1990 [2 U.S.C. 661a(5)], of the loan guarantee.

(2) Periodic disbursements

In the case of a loan guarantee in which proceeds of the loan are disbursed over time, the Secretary shall collect the amount required under this subsection on a pro rata basis, as determined by the Secretary, at the time of each disbursement.

(e) Other terms and conditions

(1) Prohibition on subordination

A loan guaranteed under this section may not be subordinated to another debt contracted by the United States commercial provider concerned, or to any other claims against such provider.

(2) Restriction on income

A loan guaranteed under this section may not—

(A) provide income which is excluded from gross income for purposes of chapter 1 of title 26; or

(B) provide significant collateral or security, as determined by the Secretary, for other obligations the income from which is so excluded.

(3) Treatment of guarantee

The guarantee of a loan under this section shall be conclusive evidence of the following:

(A) That the guarantee has been properly obtained.

(B) That the loan qualifies for the guarantee.

(C) That, but for fraud or material misrepresentation by the holder of the loan, the guarantee is valid, legal, and enforceable.

(4) Other terms and conditions

The Secretary may establish any other terms and conditions for a guarantee of a loan under this section, as the Secretary considers appropriate to protect the financial interests of the United States.

(f) Enforcement of rights

(1) In general

The Attorney General may take any action the Attorney General considers appropriate to enforce any right accruing to the United States under a loan guarantee under this section.

(2) Forbearance

The Attorney General may, with the approval of the parties concerned, forbear¹ from enforcing any right of the United States under a loan guaranteed under this section for the benefit of a United States commercial provider if such forbearance will not result in any cost, as defined in section 502(5) of the Federal Credit Reform Act of 1990 [2 U.S.C. 661a(5)], to the United States.

(3) Utilization of property

Notwithstanding any other provision of law and subject to the terms of a loan guaranteed under this section, upon the default of a United States commercial provider under the loan, the Secretary may, at the election of the Secretary—

(A) assume control of the physical asset financed by the loan; and

(B) complete, recondition, reconstruct, renovate, repair, maintain, operate, or sell the physical asset.

(g) Credit instruments

(1) Authority to issue instruments

Notwithstanding any other provision of law, the Secretary may, subject to such terms and conditions as the Secretary considers appropriate, issue credit instruments to United States commercial providers of in-space transportation services or system², with the aggregate cost (as determined under the provisions of the Federal Credit Reform Act of 1990 (2 U.S.C. 661 et seq.)) of such instruments not to exceed \$1,500,000,000, but only to the extent that new budget authority to cover such costs is provided in subsequent appropriations Acts or authority is otherwise provided in subsequent appropriations Acts.

(2) Credit subsidy

The Secretary shall provide a credit subsidy for any credit instrument issued under this subsection in accordance with the provisions of the Federal Credit Reform Act of 1990.

(3) Construction

The eligibility of a United States commercial provider of in-space transportation services or systems for a credit instrument under this subsection is in addition to any eligibility of such provider for a loan guarantee under other provisions of this section.

SUBCHAPTER I—PROGRAMS FOR INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES

PART A—GENERAL PROVISIONS

§ 15001. Findings, purposes, and policy

(a) Findings

Congress finds that—

(1) disability is a natural part of the human experience that does not diminish the right of individuals with developmental disabilities to live independently, to exert control and choice over their own lives, and to fully participate in and contribute to their communities through full integration and inclusion in the economic, political, social, cultural, and educational mainstream of United States society;

(2) in 1999, there were between 3,200,000 and 4,500,000 individuals with developmental disabilities in the United States, and recent studies indicate that individuals with developmental disabilities comprise between 1.2 and 1.65 percent of the United States population;

(3) individuals whose disabilities occur during their developmental period frequently have severe disabilities that are likely to continue indefinitely;

(4) individuals with developmental disabilities often encounter discrimination in the provision of critical services, such as services in the areas of emphasis (as defined in section 15002 of this title);

(5) individuals with developmental disabilities are at greater risk than the general population of abuse, neglect, financial and sexual exploitation, and the violation of their legal and human rights;

(6) a substantial portion of individuals with developmental disabilities and their families do not have access to appropriate support and services, including access to assistive technology, from generic and specialized service systems, and remain unserved or underserved;

(7) individuals with developmental disabilities often require lifelong community services, individualized supports, and other forms of assistance, that are most effective when provided in a coordinated manner;

(8) there is a need to ensure that services, supports, and other assistance are provided in a culturally competent manner, that ensures that individuals from racial and ethnic minority backgrounds are fully included in all activities provided under this subchapter;

(9) family members, friends, and members of the community can play an important role in enhancing the lives of individuals with developmental disabilities, especially when the family members, friends, and community members are provided with the necessary community services, individualized supports, and other forms of assistance;

(10) current research indicates that 88 percent of individuals with developmental disabilities live with their families or in their own households;

(11) many service delivery systems and communities are not prepared to meet the impending needs of the 479,862 adults with developmental disabilities who are living at home with parents who are 60 years old or older and who serve as the primary caregivers of the adults;

(12) in almost every State, individuals with developmental disabilities are waiting for appropriate services in their communities, in the areas of emphasis;

(13) the public needs to be made more aware of the capabilities and competencies of individuals with developmental disabilities, particularly in cases in which the individuals are provided with necessary services, supports, and other assistance;

(14) as increasing numbers of individuals with developmental disabilities are living, learning, working, and participating in all aspects of community life, there is an increasing need for a well trained workforce that is able to provide the services, supports, and other forms of direct assistance required to enable the individuals to carry out those activities;

(15) there needs to be greater effort to recruit individuals from minority backgrounds into professions serving individuals with developmental disabilities and their families;

(16) the goals of the Nation properly include a goal of providing individuals with developmental disabilities with the information, skills, opportunities, and support to—

(A) make informed choices and decisions about their lives;

(B) live in homes and communities in which such individuals can exercise their full rights and responsibilities as citizens;

(C) pursue meaningful and productive lives;

(D) contribute to their families, communities, and States, and the Nation;

(E) have interdependent friendships and relationships with other persons;

(F) live free of abuse, neglect, financial and sexual exploitation, and violations of their legal and human rights; and

(G) achieve full integration and inclusion in society, in an individualized manner, consistent with the unique strengths, resources, priorities, concerns, abilities, and capabilities of each individual; and

(17) as the Nation, States, and communities maintain and expand community living options for individuals with developmental disabilities, there is a need to evaluate the access to those options by individuals with developmental disabilities and the effects of those options on individuals with developmental disabilities.

(b) Purpose

The purpose of this subchapter is to assure that individuals with developmental disabilities and their families participate in the design of and have access to needed community services, individualized supports, and other forms of assistance that promote self-determination, independence, productivity, and integration and inclusion in all facets of community life, through culturally competent programs authorized under this subchapter, including specifically—

(1) State Councils on Developmental Disabilities in each State to engage in advocacy, capacity building, and systemic change activities that—

(A) are consistent with the purpose described in this subsection and the policy described in subsection (c) of this section; and

(B) contribute to a coordinated, consumer- and family-centered, consumer- and family-directed, comprehensive system that includes needed community services, individualized supports, and other forms of assistance that promote self-determination for individuals with developmental disabilities and their families;

(2) protection and advocacy systems in each State to protect the legal and human rights of individuals with developmental disabilities;

(3) University Centers for Excellence in Developmental Disabilities Education, Research, and Service—

(A) to provide interdisciplinary pre-service preparation and continuing education of students and fellows, which may include the preparation and continuing education of leadership, direct service, clinical, or other personnel to strengthen and increase the capacity of States and communities to achieve the purpose of this subchapter;

(B) to provide community services—

(i) that provide training and technical assistance for individuals with developmental disabilities, their families, professionals, paraprofessionals, policymakers, students, and other members of the community; and

(ii) that may provide services, supports, and assistance for the persons described in clause (i) through demonstration and model activities;

(C) to conduct research, which may include basic or applied research, evaluation, and the analysis of public policy in areas that affect or could affect, either positively or negatively, individuals with developmental disabilities and their families; and

(D) to disseminate information related to activities undertaken to address the purpose of this subchapter, especially dissemination of information that demonstrates that the network authorized under this part is a national and international resource that includes specific substantive areas of expertise that may be accessed and applied in diverse settings and circumstances; and

(4) funding for—

(A) national initiatives to collect necessary data on issues that are directly or indirectly relevant to the lives of individuals with developmental disabilities;

(B) technical assistance to entities who engage in or intend to engage in activities consistent with the purpose described in this subsection or the policy described in subsection (c) of this section; and

(C) other nationally significant activities.

(c) Policy

It is the policy of the United States that all programs, projects, and activities receiving assistance under this subchapter shall be carried out in a manner consistent with the principles that—

(1) individuals with developmental disabilities, including those with the most severe developmental disabilities, are capable of self-determination, independence, productivity, and integration and inclusion in all facets of community life, but often require the provision of community services, individualized supports, and other forms of assistance;

(2) individuals with developmental disabilities and their families have competencies, capabilities, and personal goals that should be recognized, supported, and encouraged, and any assistance to such individuals should be provided in an individualized manner, consistent with the unique strengths, resources, priorities, concerns, abilities, and capabilities of such individuals;

(3) individuals with developmental disabilities and their families are the primary decisionmakers regarding the services and supports such individuals and their families receive, including regarding choosing where the individuals live from available options, and play decisionmaking roles in policies and programs that affect the lives of such individuals and their families;

(4) services, supports, and other assistance should be provided in a manner that demonstrates respect for individual dignity, personal preferences, and cultural differences;

(5) specific efforts must be made to ensure that individuals with developmental disabilities from racial and ethnic minority back-

grounds and their families enjoy increased and meaningful opportunities to access and use community services, individualized supports, and other forms of assistance available to other individuals with developmental disabilities and their families;

(6) recruitment efforts in disciplines related to developmental disabilities relating to pre-service training, community training, practice, administration, and policymaking must focus on bringing larger numbers of racial and ethnic minorities into the disciplines in order to provide appropriate skills, knowledge, role models, and sufficient personnel to address the growing needs of an increasingly diverse population;

(7) with education and support, communities can be accessible to and responsive to the needs of individuals with developmental disabilities and their families and are enriched by full and active participation in community activities, and contributions, by individuals with developmental disabilities and their families;

(8) individuals with developmental disabilities have access to opportunities and the necessary support to be included in community life, have interdependent relationships, live in homes and communities, and make contributions to their families, communities, and States, and the Nation;

(9) efforts undertaken to maintain or expand community-based living options for individuals with disabilities should be monitored in order to determine and report to appropriate individuals and entities the extent of access by individuals with developmental disabilities to those options and the extent of compliance by entities providing those options with quality assurance standards;

(10) families of children with developmental disabilities need to have access to and use of safe and appropriate child care and before-school and after-school programs, in the most integrated settings, in order to enrich the participation of the children in community life;

(11) individuals with developmental disabilities need to have access to and use of public transportation, in order to be independent and directly contribute to and participate in all facets of community life; and

(12) individuals with developmental disabilities need to have access to and use of recreational, leisure, and social opportunities in the most integrated settings, in order to enrich their participation in community life.

Congress makes the following findings respecting the rights of individuals with developmental disabilities:

(1) Individuals with developmental disabilities have a right to appropriate treatment, services, and habilitation for such disabilities, consistent with section 15001(c) of this title.

(2) The treatment, services, and habitation¹ for an individual with developmental disabilities should be designed to maximize the potential of the individual and should be provided in the setting that is least restrictive of the individual's personal liberty.

(3) The Federal Government and the States both have an obligation to ensure that public funds are provided only to institutional programs, residential programs, and other community programs, including educational programs in which individuals with developmental disabilities participate, that—

(A) provide treatment, services, and habilitation that are appropriate to the needs of such individuals; and

(B) meet minimum standards relating to—

(i) provision of care that is free of abuse, neglect, sexual and financial exploitation, and violations of legal and human rights and that subjects individuals with developmental disabilities to no greater risk of harm than others in the general population;

(ii) provision to such individuals of appropriate and sufficient medical and dental services;

(iii) prohibition of the use of physical restraint and seclusion for such an individual unless absolutely necessary to ensure the immediate physical safety of the individual or others, and prohibition of the use of such restraint and seclusion as a punishment or as a substitute for a habilitation program;

(iv) prohibition of the excessive use of chemical restraints on such individuals and the use of such restraints as punishment or as a substitute for a habilitation program or in quantities that interfere with services, treatment, or habilitation for such individuals; and

(v) provision for close relatives or guardians of such individuals to visit the individuals without prior notice.

(4) All programs for individuals with developmental disabilities should meet standards—

(A) that are designed to assure the most favorable possible outcome for those served; and

(B)(i) in the case of residential programs serving individuals in need of comprehensive health-related, habilitative, assistive technology or rehabilitative services, that are at least equivalent to those standards applicable to intermediate care facilities for the mentally retarded, promulgated in regulations of the Secretary on June 3, 1988, as appropriate, taking into account the size of the institutions and the service delivery arrangements of the facilities of the programs;

(ii) in the case of other residential programs for individuals with developmental disabilities, that assure that—

(I) care is appropriate to the needs of the individuals being served by such programs;

(II) the individuals admitted to facilities of such programs are individuals whose needs can be met through services provided by such facilities; and

(III) the facilities of such programs provide for the humane care of the residents of the facilities, are sanitary, and protect their rights; and

(iii) in the case of nonresidential programs, that assure that the care provided by such programs is appropriate to the individuals served by the programs.

(b) Clarification

The rights of individuals with developmental disabilities described in findings made in this section shall be considered to be in addition to any constitutional or other rights otherwise afforded to all individuals.

(3) Amounts

The Secretary shall reallot the amount to other States with respect to which the Secretary has not made that determination. The Secretary shall reallot the amount in proportion to the original allotments of the other States for such fiscal year, but shall reduce such proportionate amount for any of the other States to the extent the proportionate amount exceeds the sum that the Secretary estimates the State needs and will be able to use during such period.

(4) Reallocation of reductions

The Secretary shall similarly reallot the total of the reductions among the States whose proportionate amounts were not so reduced.

(5) Treatment

Any amount reallotted to a State under this subsection for a fiscal year shall be deemed to be a part of the allotment of the State under subsection (a) of this section for such fiscal year.

SUBCHAPTER II—FAMILY SUPPORT

§ 15091. Findings, purposes, and policy

(a) Findings

Congress makes the following findings:

(1) It is in the best interest of our Nation to preserve, strengthen, and maintain the family.

(2) Families of children with disabilities provide support, care, and training to their children that can save States millions of dollars. Without the efforts of family caregivers, many persons with disabilities would receive care through State-supported out-of-home placements.

(3) Most families of children with disabilities, especially families in unserved and underserved populations, do not have access to family-centered and family-directed services to support such families in their efforts to care for such children at home.

(4) Medical advances and improved health care have increased the life span of many people with disabilities, and the combination of the longer life spans and the aging of family caregivers places a continually increasing demand on the finite service delivery systems of the States.

(5) In 1996, 49 States provided family support initiatives in response to the needs of families

of children with disabilities. Such initiatives included the provision of cash subsidies, respite care, and other forms of support. There is a need in each State, however, to strengthen, expand, and coordinate the activities of a system of family support services for families of children with disabilities that is easily accessible, avoids duplication, uses resources efficiently, and prevents gaps in services to families in all areas of the State.

(6) The goals of the Nation properly include the goal of providing to families of children with disabilities the family support services necessary—

(A) to support the family;

(B) to enable families of children with disabilities to nurture and enjoy their children at home;

(C) to enable families of children with disabilities to make informed choices and decisions regarding the nature of supports, resources, services, and other assistance made available to such families; and

(D) to support family caregivers of adults with disabilities.

(b) Purposes

The purposes of this subchapter are—

(1) to promote and strengthen the implementation of comprehensive State systems of family support services, for families with children with disabilities, that are family-centered and family-directed, and that provide families with the greatest possible decisionmaking authority and control regarding the nature and use of services and support;

(2) to promote leadership by families in planning, policy development, implementation, and evaluation of family support services for families of children with disabilities;

(3) to promote and develop interagency coordination and collaboration between agencies responsible for providing the services; and

(4) to increase the availability of, funding for, access to, and provision of family support services for families of children with disabilities.

(c) Policy

It is the policy of the United States that all programs, projects, and activities funded under this subchapter shall be family-centered and family-directed, and shall be provided in a manner consistent with the goal of providing families of children with disabilities with the support the families need to raise their children at home.

SUBCHAPTER III—PROGRAM FOR DIRECT SUPPORT WORKERS WHO ASSIST INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES

§ 15111. Findings

Congress finds that—

(1) direct support workers, especially young adults, have played essential roles in providing the support needed by individuals with developmental disabilities and expanding community options for those individuals;

(2) 4 factors have contributed to a decrease in the available pool of direct support workers, specifically—

(A) the small population of individuals who are age 18 through 25, an age group that has been attracted to direct support work in the past;

(B) the rapid expansion of the service sector, which attracts individuals who previously would have elected to pursue employment as direct support workers;

(C) the failure of wages in the human services sector to keep pace with wages in other service sectors; and

(D) the lack of quality training and career advancement opportunities available to direct support workers; and

(3) individuals with developmental disabilities benefit from assistance from direct support workers who are well trained, and benefit from receiving services from professionals who have spent time as direct support workers.

(Pub. L. 106-402, title III, § 301, Oct. 30, 2000, 114 Stat. 1734.)

(b) Findings

(2) More than 700,000 law enforcement officers, both men and women, at great risk to their personal safety, serve their fellow citizens as guardians of peace.

(3) Nationwide, 51 law enforcement officers were killed in the line of duty in 2000, according to statistics released by the Federal Bureau of Investigation. This number is an increase of 9 from the 1999 total of 42.

(4) In 1999, 112 firefighters died while on duty, an increase of 21 deaths from the previous year.

(5) Every year, 1 in 9 peace officers is assaulted, 1 in 25 is injured, and 1 in 4,400 is killed in the line of duty.

(7) A permanent tribute is a powerful means of honoring the men and women who have served our Nation with distinction. However, many law enforcement and public safety agencies lack the resources to honor their fallen colleagues.

(c) Program authorized

Not later than November 30 of each year, the Attorney General shall submit a report to the Congress regarding the activities carried out under this section. Each such report shall include, for the preceding fiscal year, the number of grants funded under this section, the amount of funds provided under those grants, and the activities for which those funds were used.

(i) Authorization of appropriations

There are authorized to be appropriated to carry out this section \$3,000,000 for each of fiscal years 2002 through 2009.

(1) An election official at the polling place shall notify the individual that the individual may cast a provisional ballot in that election.

(5)(A) At the time that an individual casts a provisional ballot, the appropriate State or local election official shall give the individual written information that states that any individual who casts a provisional ballot will be able to ascertain under the system established under subparagraph (B) whether the vote was counted, and, if the vote was not counted, the reason that the vote was not counted.

(B) The appropriate State or local election official shall establish a free access system (such as a toll-free telephone number or an Internet website) that any individual who casts a provisional ballot may access to discover whether the vote of that individual was counted, and, if the vote was not counted, the reason that the vote was not counted.

States described in section 1973gg-2(b) of this title may meet the requirements of this subsection using voter registration procedures established under applicable State law. The appropriate State or local official shall establish and maintain reasonable procedures necessary to protect the security, confidentiality, and integ-

Any such ballot cast under the preceding sentence shall be separated and held apart from other provisional ballots cast by those not affected by the order.

form and nondiscriminatory manner, a single, uniform, official, centralized, interactive computerized statewide voter registration list defined, maintained, and administered at the State level that contains the name and registration information of every legally registered voter in the State and assigns a unique identifier to each legally registered voter in the State (in this subsection referred to as the “computerized list”), and includes the following:

(i) The computerized list shall serve as the single system for storing and managing the official list of registered voters throughout the State.

(ii) The computerized list contains the name and registration information of every legally registered voter in the State.

(iii) Under the computerized list, a unique identifier is assigned to each legally registered voter in the State.

(iv) The computerized list shall be coordinated with other agency databases within the State.

(v) Any election official in the State, including any local election official, may obtain immediate electronic access to the information contained in the computerized list.

(vi) All voter registration information obtained by any local election official in the State shall be electronically entered into the computerized list on an expedited basis at the time the information is provided to the local official.

(vii) The chief State election official shall provide such support as may be required so that local election officials are able to enter information as described in clause (vi).

(viii) The computerized list shall serve as the official voter registration list for the conduct of all elections for Federal office in the State.

(2) Computerized list maintenance

(A) In general

The appropriate State or local election official shall perform list maintenance with respect to the computerized list on a regular basis as follows:

(i) If an individual is to be removed from the computerized list, such individual shall be removed in accordance with the provisions of the National Voter Registration Act of 1993 (42 U.S.C. 1973gg et seq.), including subsections (a)(4), (c)(2), (d), and (e) of section 8 of such Act (42 U.S.C. 1973gg-6).

(4) Minimum standard for accuracy of State voter registration records

The State election system shall include provisions to ensure that voter registration records in the State are accurate and are updated regularly, including the following:

(A) A system of file maintenance that makes a reasonable effort to remove registrants who are ineligible to vote from the official list of eligible voters. Under such system, consistent with the National Voter Registration Act of 1993 (42 U.S.C. 1973gg et seq.), registrants who have not responded to a notice and who have not voted in 2 consecutive general elections for Federal office shall be removed from the official list of eligible voters, except that no registrant may be removed solely by reason of a failure to vote.

15609.	Definitions.

§ 15601. Findings

Congress makes the following findings:

(1) 2,100,146 persons were incarcerated in the United States at the end of 2001: 1,324,465 in Federal and State prisons and 631,240 in county and local jails. In 1999, there were more than 10,000,000 separate admissions to and discharges from prisons and jails.

(2) Insufficient research has been conducted and insufficient data reported on the extent of prison rape. However, experts have conservatively estimated that at least 13 percent of the inmates in the United States have been sexually assaulted in prison. Many inmates have suffered repeated assaults. Under this estimate, nearly 200,000 inmates now incarcerated have been or will be the victims of prison rape. The total number of inmates who have been sexually assaulted in the past 20 years likely exceeds 1,000,000.

(3) Inmates with mental illness are at increased risk of sexual victimization. America's jails and prisons house more mentally ill individuals than all of the Nation's psychiatric hospitals combined. As many as 16 percent of inmates in State prisons and jails, and 7 percent of Federal inmates, suffer from mental illness.

(4) Young first-time offenders are at increased risk of sexual victimization. Juveniles are 5 times more likely to be sexually assaulted in adult rather than juvenile facilities—often within the first 48 hours of incarceration.

(5) Most prison staff are not adequately trained or prepared to prevent, report, or treat inmate sexual assaults.

(6) Prison rape often goes unreported, and inmate victims often receive inadequate treatment for the severe physical and psychological effects of sexual assault—if they receive treatment at all.

(7) HIV and AIDS are major public health problems within America's correctional facilities. In 2000, 25,088 inmates in Federal and State prisons were known to be infected with HIV/AIDS. In 2000, HIV/AIDS accounted for more than 6 percent of all deaths in Federal and State prisons. Infection rates for other sexually transmitted diseases, tuberculosis, and hepatitis B and C are also far greater for prisoners than for the American population as a whole. Prison rape undermines the public health by contributing to the spread of these diseases, and often giving a potential death sentence to its victims.

(8) Prison rape endangers the public safety by making brutalized inmates more likely to commit crimes when they are released—as 600,000 inmates are each year.

(9) The frequently interracial character of prison sexual assaults significantly exacerbates interracial tensions, both within prison and, upon release of perpetrators and victims from prison, in the community at large.

(10) Prison rape increases the level of homicides and other violence against inmates and staff, and the risk of insurrections and riots.

(11) Victims of prison rape suffer severe physical and psychological effects that hinder their ability to integrate into the community and maintain stable employment upon their release from prison. They are thus more likely to become homeless and/or require government assistance.

(12) Members of the public and government officials are largely unaware of the epidemic character of prison rape and the day-to-day horror experienced by victimized inmates.

(13) The high incidence of sexual assault within prisons involves actual and potential violations of the United States Constitution. In *Farmer v. Brennan*, 511 U.S. 825 (1994), the Supreme Court ruled that deliberate indifference to the substantial risk of sexual assault violates prisoners' rights under the Cruel and Unusual Punishments Clause of the Eighth Amendment. The Eighth Amendment rights of State and local prisoners are protected through the Due Process Clause of the Fourteenth Amendment. Pursuant to the power of

Congress under Section Five of the Fourteenth Amendment, Congress may take action to enforce those rights in States where officials have demonstrated such indifference. States that do not take basic steps to abate prison rape by adopting standards that do not generate significant additional expenditures demonstrate such indifference. Therefore, such States are not entitled to the same level of Federal benefits as other States.

(14) The high incidence of prison rape undermines the effectiveness and efficiency of United States Government expenditures through grant programs such as those dealing with health care; mental health care; disease prevention; crime prevention, investigation, and prosecution; prison construction, maintenance, and operation; race relations; poverty; unemployment and homelessness. The effectiveness and efficiency of these federally funded grant programs are compromised by the failure of State officials to adopt policies and procedures that reduce the incidence of prison rape in that the high incidence of prison rape—

(A) increases the costs incurred by Federal, State, and local jurisdictions to administer their prison systems;

(B) increases the levels of violence, directed at inmates and at staff, within prisons;

(C) increases health care expenditures, both inside and outside of prison systems, and reduces the effectiveness of disease prevention programs by substantially increasing the incidence and spread of HIV, AIDS, tuberculosis, hepatitis B and C, and other diseases;

(D) increases mental health care expenditures, both inside and outside of prison systems, by substantially increasing the rate of post-traumatic stress disorder, depression, suicide, and the exacerbation of existing mental illnesses among current and former inmates;

(E) increases the risks of recidivism, civil strife, and violent crime by individuals who have been brutalized by prison rape; and

(F) increases the level of interracial tensions and strife within prisons and, upon release of perpetrators and victims, in the community at large.

(15) The high incidence of prison rape has a significant effect on interstate commerce because it increases substantially—

(A) the costs incurred by Federal, State, and local jurisdictions to administer their prison systems;

(B) the incidence and spread of HIV, AIDS, tuberculosis, hepatitis B and C, and other diseases, contributing to increased health and medical expenditures throughout the Nation;

(C) the rate of post-traumatic stress disorder, depression, suicide, and the exacerbation of existing mental illnesses among current and former inmates, contributing to increased health and medical expenditures throughout the Nation; and

(D) the risk of recidivism, civil strife, and violent crime by individuals who have been brutalized by prison rape.

SHORT TITLE

Pub. L. 108–79, § 1(a), Sept. 4, 2003, 117 Stat. 972, provided that: “This Act [enacting this chapter] may be cited as the ‘Prison Rape Elimination Act of 2003’.”

§ 15602. Purposes

The purposes of this chapter are to—

(1) establish a zero-tolerance standard for the incidence of prison rape in prisons in the United States;

(2) make the prevention of prison rape a top priority in each prison system;

(3) develop and implement national standards for the detection, prevention, reduction, and punishment of prison rape;

(4) increase the available data and information on the incidence of prison rape, consequently improving the management and administration of correctional facilities;

(5) standardize the definitions used for collecting data on the incidence of prison rape;

(6) increase the accountability of prison officials who fail to detect, prevent, reduce, and punish prison rape;

(7) protect the Eighth Amendment rights of Federal, State, and local prisoners;

(8) increase the efficiency and effectiveness of Federal expenditures through grant programs such as those dealing with health care; mental health care; disease prevention; crime prevention, investigation, and prosecution; prison construction, maintenance, and operation; race relations; poverty; unemployment; and homelessness; and

(9) reduce the costs that prison rape imposes on interstate commerce.

(Pub. L. 108–79, § 3, Sept. 4, 2003, 117 Stat. 974.)

§ 15603. National prison rape statistics, data, and research

(a) Annual comprehensive statistical review

(1) In general

The Bureau of Justice Statistics of the Department of Justice (in this section referred to as the “Bureau”) shall carry out, for each calendar year, a comprehensive statistical review and analysis of the incidence and effects of prison rape. The statistical review and analysis shall include, but not be limited to the identification of the common characteristics of—

(A) both victims and perpetrators of prison rape; and

(B) prisons and prison systems with a high incidence of prison rape.

(2) Considerations

In carrying out paragraph (1), the Bureau shall consider—

(A) how rape should be defined for the purposes of the statistical review and analysis;

(B) how the Bureau should collect information about staff-on-inmate sexual assault;

(C) how the Bureau should collect information beyond inmate self-reports of prison rape;

(D) how the Bureau should adjust the data in order to account for differences among prisons as required by subsection (c)(3);

(E) the categorization of prisons as required by subsection (c)(4); and

(F) whether a preliminary study of prison rape should be conducted to inform the methodology of the comprehensive statistical review.

(3) Solicitation of views

The Bureau of Justice Statistics shall solicit views from representatives of the following: State departments of correction; county and municipal jails; juvenile correctional facilities; former inmates; victim advocates; researchers; and other experts in the area of sexual assault.

(4) Sampling techniques

The review and analysis under paragraph (1) shall be based on a random sample, or other scientifically appropriate sample, of not less than 10 percent of all Federal, State, and county prisons, and a representative sample of municipal prisons. The selection shall include at least one prison from each State. The selection of facilities for sampling shall be made at the latest practicable date prior to conducting the surveys and shall not be disclosed to any facility or prison system official prior to the time period studied in the survey. Selection of a facility for sampling during any year shall not preclude its selection for sampling in any subsequent year.

(5) Surveys

In carrying out the review and analysis under paragraph (1), the Bureau shall, in addition to such other methods as the Bureau considers appropriate, use surveys and other statistical studies of current and former inmates from a sample of Federal, State, county, and municipal prisons. The Bureau shall ensure the confidentiality of each survey participant, except as authorized in paragraph (7).

(6) Participation in survey

Federal, State, or local officials or facility administrators that receive a request from the Bureau under subsection (a)(4) or (5) will be required to participate in the national survey and provide access to any inmates under their legal custody.

(7) Reporting on child abuse and neglect

Nothing in section 3735 or 3789g of this title or any other provision of law, including paragraph (5), shall prevent the Bureau (including its agents), in carrying out the review and analysis under paragraph (1), from reporting to the designated public officials such information (and only such information) regarding child abuse or child neglect with respect to which the statutes or regulations of a State (or a political subdivision thereof) require prompt reporting.

(b) Review Panel on Prison Rape

(1) Establishment

To assist the Bureau in carrying out the review and analysis under subsection (a), there is established, within the Department of Justice, the Review Panel on Prison Rape (in this section referred to as the "Panel").

(2) Membership

(A) Composition

The Panel shall be composed of 3 members, each of whom shall be appointed by the Attorney General, in consultation with the Secretary of Health and Human Services.

(B) Qualifications

Members of the Panel shall be selected from among individuals with knowledge or expertise in matters to be studied by the Panel.

(3) Public hearings

(A) In general

The duty of the Panel shall be to carry out, for each calendar year, public hearings concerning the operation of the three prisons with the highest incidence of prison rape and the two prisons with the lowest incidence of prison rape in each category of facilities identified under subsection (c)(4). The Panel shall hold a separate hearing regarding the three Federal or State prisons with the highest incidence of prison rape. The purpose of these hearings shall be to collect evidence to aid in the identification of common characteristics of both victims and perpetrators of prison rape, and the identification of common characteristics of prisons and prison systems with a high incidence of prison rape, and the identification of common characteristics of prisons and prison systems that appear to have been successful in deterring prison rape.

(B) Testimony at hearings

(i) Public officials

In carrying out the hearings required under subparagraph (A), the Panel shall request the public testimony of Federal, State, and local officials (and organizations that represent such officials), including the warden or director of each prison, who bears responsibility for the prevention, detection, and punishment of prison rape at each entity, and the head of the prison system encompassing such prison.

(ii) Victims

The Panel may request the testimony of prison rape victims, organizations representing such victims, and other appropriate individuals and organizations.

(C) Subpoenas

(i) Issuance

The Panel may issue subpoenas for the attendance of witnesses and the production of written or other matter.

(ii) Enforcement

In the case of contumacy or refusal to obey a subpoena, the Attorney General may in a Federal court of appropriate jurisdiction obtain an appropriate order to enforce the subpoena.

(c) Reports

(1) In general

Not later than June 30 of each year, the Attorney General shall submit a report on the

activities of the Bureau and the Review Panel, with respect to prison rape, for the preceding calendar year to—

- (A) Congress; and
- (B) the Secretary of Health and Human Services.

(2) Contents

The report required under paragraph (1) shall include—

- (A) with respect to the effects of prison rape, statistical, sociological, and psychological data;
- (B) with respect to the incidence of prison rape—
 - (i) statistical data aggregated at the Federal, State, prison system, and prison levels;
 - (ii) a listing of those institutions in the representative sample, separated into each category identified under subsection (c)(4) and ranked according to the incidence of prison rape in each institution; and
 - (iii) an identification of those institutions in the representative sample that appear to have been successful in deterring prison rape; and
- (C) a listing of any prisons in the representative sample that did not cooperate with the survey conducted pursuant to this section.

(3) Data adjustments

In preparing the information specified in paragraph (2), the Attorney General shall use established statistical methods to adjust the data as necessary to account for differences among institutions in the representative sample, which are not related to the detection, prevention, reduction and punishment of prison rape, or which are outside the control of the State, prison, or prison system, in order to provide an accurate comparison among prisons. Such differences may include the mission, security level, size, and jurisdiction under which the prison operates. For each such adjustment made, the Attorney General shall identify and explain such adjustment in the report.

(4) Categorization of prisons

The report shall divide the prisons surveyed into three categories. One category shall be composed of all Federal and State prisons. The other two categories shall be defined by the Attorney General in order to compare similar institutions.

(d) Contracts and grants

In carrying out its duties under this section, the Attorney General may—

- (1) provide grants for research through the National Institute of Justice; and
- (2) contract with or provide grants to any other entity the Attorney General deems appropriate.

(e) Authorization of appropriations

There are authorized to be appropriated \$15,000,000 for each of fiscal years 2004 through 2010 to carry out this section.

§ 15605. Grants to protect inmates and safeguard communities

(a) Grants authorized

From amounts made available for grants under this section, the Attorney General shall make grants to States to assist those States in ensuring that budgetary circumstances (such as reduced State and local spending on prisons) do not compromise efforts to protect inmates (particularly from prison rape) and to safeguard the communities to which inmates return. The purpose of grants under this section shall be to provide funds for personnel, training, technical assistance, data collection, and equipment to prevent and prosecute prisoner rape.

(b) Use of grant amounts

Amounts received by a grantee under this section may be used by the grantee, directly or through subgrants, only for one or more of the following activities:

(C) preparing maps demonstrating the concentration, on a community-by-community basis, of inmates who have been released, to facilitate the efficient and effective—

(i) deployment of law enforcement resources (including probation and parole resources); and

(ii) delivery of services (such as job training and substance abuse treatment) to those released inmates;

(D) promoting collaborative efforts, among officials of State and local governments and leaders of appropriate communities, to understand and address the effects on a community of the presence of a disproportionate number of released inmates in that community; or

CHAPTER 148—WINDSTORM IMPACT REDUCTION

Sec.	
15701.	Findings.
15702.	Definitions.
15703.	National Windstorm Impact Reduction Program.
15704.	National Advisory Committee on Windstorm Impact Reduction.
15705.	Savings clause.
15706.	Authorization of appropriations.
15707.	Coordination.

§ 15701. Findings

The Congress finds the following:

(1) Hurricanes, tropical storms, tornadoes, and thunderstorms can cause significant loss of life, injury, destruction of property, and economic and social disruption. All States and regions are vulnerable to these hazards.

(2) The United States currently sustains several billion dollars in economic damages each year due to these windstorms. In recent dec-

ades, rapid development and population growth in high-risk areas has greatly increased overall vulnerability to windstorms.

(3) Improved windstorm impact reduction measures have the potential to reduce these losses through—

(A) cost-effective and affordable design and construction methods and practices;

(B) effective mitigation programs at the local, State, and national level;

(C) improved data collection and analysis and impact prediction methodologies;

(D) engineering research on improving new structures and retrofitting existing ones to better withstand windstorms, atmospheric-related research to better understand the behavior and impact of windstorms on the built environment, and subsequent application of those research results; and

(E) public education and outreach.

(4) There is an appropriate role for the Federal Government in supporting windstorm impact reduction. An effective Federal program in windstorm impact reduction will require interagency coordination, and input from individuals, academia, the private sector, and other interested non-Federal entities.

§ 15703. National Windstorm Impact Reduction Program

(a) Establishment

There is established the National Windstorm Impact Reduction Program.

(b) Objective

The objective of the Program is the achievement of major measurable reductions in losses of life and property from windstorms. The objective is to be achieved through a coordinated Federal effort, in cooperation with other levels of government, academia, and the private sector, aimed at improving the understanding of windstorms and their impacts and developing and encouraging implementation of cost-effective mitigation measures to reduce those impacts.

(c) Interagency Working Group

Not later than 90 days after October 25, 2004, the Director shall establish an Interagency Working Group consisting of representatives of the National Science Foundation, the National Oceanic and Atmospheric Administration, the National Institute of Standards and Technology, the Federal Emergency Management Agency, and other Federal agencies as appropriate. The Director shall designate an agency to serve as Chair of the Working Group and be responsible for the planning, management, and coordination of the Program, including budget coordination. Specific agency roles and responsibilities under the Program shall be defined in the implementation plan required under subsection (e). General agency responsibilities shall include the following:

(1) The National Institute of Standards and Technology shall support research and development to improve building codes and standards and practices for design and construction of buildings, structures, and lifelines.

(2) The National Science Foundation shall support research in engineering and the atmospheric sciences to improve the understanding of the behavior of windstorms and their impact on buildings, structures, and lifelines.

(3) The National Oceanic and Atmospheric Administration shall support atmospheric sciences research to improve the understanding of the behavior of windstorms and their impact on buildings, structures, and lifelines.

(4) The Federal Emergency Management Agency shall support the development of risk assessment tools and effective mitigation techniques, windstorm-related data collection and analysis, public outreach, information dissemination, and implementation of mitigation measures consistent with the Agency’s all-hazards approach.

(d) Program components

(1) In general

The Program shall consist of three primary mitigation components: improved understanding of windstorms, windstorm impact assessment, and windstorm impact reduction. The components shall be implemented through activities such as data collection and analysis, risk assessment, outreach, technology transfer, and research and development. To the ex-

tent practicable, research activities authorized under this chapter shall be peer-reviewed, and the components shall be designed to be complementary to, and avoid duplication of, other public and private hazard reduction efforts.

(2) Understanding of windstorms

Activities to enhance the understanding of windstorms shall include research to improve knowledge of and data collection on the impact of severe wind on buildings, structures, and infrastructure.

(3) Windstorm impact assessment

Activities to improve windstorm impact assessment shall include—

(A) development of mechanisms for collecting and inventorying information on the performance of buildings, structures, and infrastructure in windstorms and improved collection of pertinent information from sources, including the design and construction industry, insurance companies, and building officials;

(B) research, development, and technology transfer to improve loss estimation and risk assessment systems; and

(C) research, development, and technology transfer to improve simulation and computational modeling of windstorm impacts.

(4) Windstorm impact reduction

Activities to reduce windstorm impacts shall include—

(A) development of improved outreach and implementation mechanisms to translate existing information and research findings into cost-effective and affordable practices for design and construction professionals, and State and local officials;

(B) development of cost-effective and affordable windstorm-resistant systems, structures, and materials for use in new construction and retrofit of existing construction; and

(C) outreach and information dissemination related to cost-effective and affordable construction techniques, loss estimation and risk assessment methodologies, and other pertinent information regarding windstorm phenomena to Federal, State, and local officials, the construction industry, and the general public.

(e) Implementation plan

Not later than 1 year after October 25, 2004, the Interagency Working Group shall develop and transmit to the Congress an implementation plan for achieving the objectives of the Program. The plan shall include—

(1) an assessment of past and current public and private efforts to reduce windstorm impacts, including a comprehensive review and analysis of windstorm mitigation activities supported by the Federal Government;

(2) a description of plans for technology transfer and coordination with natural hazard mitigation activities supported by the Federal Government;

(3) a statement of strategic goals and priorities for each Program component area;

(4) a description of how the Program will achieve such goals, including detailed responsibilities for each agency; and

(5) a description of plans for cooperation and coordination with interested public and private sector entities in each program component area.

(f) Biennial report

The Interagency Working Group shall, on a biennial basis, and not later than 180 days after the end of the preceding 2 fiscal years, transmit a report to the Congress describing the status of the windstorm impact reduction program, including progress achieved during the preceding two fiscal years. PART C—HYDROELECTRIC

§ 15881. Hydroelectric production incentives

(a) Incentive payments

For electric energy generated and sold by a qualified hydroelectric facility during the incentive period, the Secretary shall make, subject to the availability of appropriations, incentive payments to the owner or operator of such facility. The amount of such payment made to any such owner or operator shall be as determined under subsection (e) of this section. Payments under this section may only be made upon receipt by the Secretary of an incentive payment application which establishes that the applicant is eligible to receive such payment and which satisfies such other requirements as the Secretary deems necessary. Such application shall be in such form, and shall be submitted at such time, as the Secretary shall establish.

(b) Definitions

For purposes of this section:

(1) Qualified hydroelectric facility

The term “qualified hydroelectric facility” means a turbine or other generating device owned or solely operated by a non-Federal entity which generates hydroelectric energy for

sale and which is added to an existing dam or conduit.

(2) Existing dam or conduit

The term “existing dam or conduit” means any dam or conduit the construction of which was completed before August 8, 2005, and which does not require any construction or enlargement of impoundment or diversion structures (other than repair or reconstruction) in connection with the installation of a turbine or other generating device.

(3) Conduit

The term “conduit” has the same meaning as when used in section 823a(a)(2) of title 16.

The terms defined in this subsection shall apply without regard to the hydroelectric kilowatt capacity of the facility concerned, without regard to whether the facility uses a dam owned by a governmental or nongovernmental entity, and without regard to whether the facility begins operation on or after August 8, 2005.

(c) Eligibility window

Payments may be made under this section only for electric energy generated from a qualified hydroelectric facility which begins operation during the period of 10 fiscal years beginning with the first full fiscal year occurring after August 8, 2005.

(d) Incentive period

A qualified hydroelectric facility may receive payments under this section for a period of 10 fiscal years (referred to in this section as the “incentive period”). Such period shall begin with the fiscal year in which electric energy generated from the facility is first eligible for such payments.

(e) Amount of payment

(1) In general

Payments made by the Secretary under this section to the owner or operator of a qualified hydroelectric facility shall be based on the number of kilowatt hours of hydroelectric energy generated by the facility during the incentive period. For any such facility, the amount of such payment shall be 1.8 cents per kilowatt hour (adjusted as provided in paragraph (2)), subject to the availability of appropriations under subsection (g), except that no facility may receive more than \$750,000 in 1 calendar year.

(2) Adjustments

The amount of the payment made to any person under this section as provided in paragraph (1) shall be adjusted for inflation for each fiscal year beginning after calendar year 2005 in the same manner as provided in the provisions of section 29(d)(2)(B)¹ of title 26, except that in applying such provisions the calendar year 2005 shall be substituted for calendar year 1979.

(f) Sunset

No payment may be made under this section to any qualified hydroelectric facility after the

expiration of the period of 20 fiscal years beginning with the first full fiscal year occurring after August 8, 2005, and no payment may be made under this section to any such facility after a payment has been made with respect to such facility for a period of 10 fiscal years.

(g) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the purposes of this section \$10,000,000 for each of the fiscal years 2006 through 2015.

(Pub. L. 109-58, title II, §242, Aug. 8, 2005, 119 Stat. 677.)

§ 15882. Hydroelectric efficiency improvement

(a) Incentive payments

The Secretary shall make incentive payments to the owners or operators of hydroelectric facilities at existing dams to be used to make capital improvements in the facilities that are directly related to improving the efficiency of such facilities by at least 3 percent.

(b) Limitations

Incentive payments under this section shall not exceed 10 percent of the costs of the capital improvement concerned and not more than 1 payment may be made with respect to improvements at a single facility. No payment in excess of \$750,000 may be made with respect to improvements at a single facility.

(c) Authorization of appropriations

There are authorized to be appropriated to carry out this section not more than \$10,000,000 for each of the fiscal years 2006 through 2015.

PART D—INSULAR ENERGY

§ 15891. Projects enhancing insular energy independence

(a) Project feasibility studies

(1) In general

On a request described in paragraph (2), the Secretary shall conduct a feasibility study of a project to implement a strategy or project identified in the plans submitted to Congress pursuant to section 1492 of title 48 as having the potential to—

- (A) significantly reduce the dependence of an insular area on imported fossil fuels; or
- (B) provide needed distributed generation to an insular area.

(2) Request

The Secretary shall conduct a feasibility study under paragraph (1) on—

- (A) the request of an electric utility located in an insular area that commits to fund at least 10 percent of the cost of the study; and
- (B) if the electric utility is located in the Federated States of Micronesia, the Repub-

lic of the Marshall Islands, or the Republic of Palau, written support for that request by the President or the Ambassador of the affected freely associated state.

(3) Consultation

The Secretary shall consult with regional utility organizations in—

- (A) conducting feasibility studies under paragraph (1); and
- (B) determining the feasibility of potential projects.

(4) Feasibility

For the purpose of a feasibility study under paragraph (1), a project shall be determined to be feasible if the project would significantly reduce the dependence of an insular area on imported fossil fuels, or provide needed distributed generation to an insular area, at a reasonable cost.

(b) Implementation

(1) In general

On a determination by the Secretary (in consultation with the Secretary of the Interior) that a project is feasible under subsection (a) and a commitment by an electric utility to operate and maintain the project, the Secretary may provide such technical and financial assistance as the Secretary determines is appropriate for the implementation of the project.

(2) Regional utility organizations

In providing assistance under paragraph (1), the Secretary shall consider providing the assistance through regional utility organizations.

(c) Authorization of appropriations

(1) In general

There are authorized to be appropriated to the Secretary—

- (A) \$500,000 for each fiscal year for project feasibility studies under subsection (a); and
- (B) \$4,000,000 for each fiscal year for project implementation under subsection (b).

(2) Limitation of funds received by insular areas

No insular area may receive, during any 3-year period, more than 20 percent of the total funds made available during that 3-year period under subparagraphs (A) and (B) of paragraph (1) unless the Secretary determines that providing funding in excess of that percentage best advances existing opportunities to meet the objectives of this section.

- (1) section 192 of title 30;
- (2) section 1353 of title 43; or
- (3) any other Federal law governing leasing of Federal land for oil and gas development.

(b) Terms and conditions

All royalty accruing to the United States shall, on the demand of the Secretary, be paid in-kind. If the Secretary makes such a demand, the following provisions apply to the payment:

(1) Satisfaction of royalty obligation

Delivery by, or on behalf of, the lessee of the royalty amount and quality due under the lease satisfies royalty obligation of the lessee for the amount delivered, except that transportation and processing reimbursements paid to, or deductions claimed by, the lessee shall be subject to review and audit.

(2) Marketable condition

(A) Definition of marketable condition

In this paragraph, the term “in marketable condition” means sufficiently free from impurities and otherwise in a condition that the royalty production will be accepted by a purchaser under a sales contract typical of the field or area in which the royalty production was produced.

(B) Requirement

Royalty production shall be placed in marketable condition by the lessee at no cost to the United States.

(3) Disposition by the Secretary

The Secretary may—

- (A) sell or otherwise dispose of any royalty production taken in-kind (other than oil or gas transferred under section 1353(a)(3) of title 43¹ for not less than the market price; and
- (B) transport or process (or both) any royalty production taken in-kind.

(4) Retention by the Secretary

The Secretary may, notwithstanding section 3302 of title 31, retain and use a portion of the revenues from the sale of oil and gas taken in-kind that otherwise would be deposited to miscellaneous receipts, without regard to fiscal year limitation, or may use oil or gas received

as royalty taken in-kind (referred to in this paragraph as “royalty production”) to pay the cost of—

- (A) transporting the royalty production;
- (B) processing the royalty production;
- (C) disposing of the royalty production; or
- (D) any combination of transporting, processing, and disposing of the royalty production.

(5) Limitation

(A) In general

Except as provided in subparagraph (B), the Secretary may use a portion of the revenues from the sale of oil and gas taken in-kind to pay for personnel, travel, or other administrative costs of the Federal Government.

(B) Exception

Notwithstanding subparagraph (A), the Secretary may use a portion of the revenues from royalty in-kind sales, without fiscal year limitation, to pay salaries and other administrative costs directly related to the royalty in-kind program.

(c) Reimbursement of cost

If the lessee, pursuant to an agreement with the United States or as provided in the lease, processes the royalty gas or delivers the royalty oil or gas at a point not on or adjacent to the lease area, the Secretary shall—

- (1) reimburse the lessee for the reasonable costs of transportation (not including gathering) from the lease to the point of delivery or for processing costs; or
- (2) allow the lessee to deduct the transportation or processing costs in reporting and paying royalties in-value for other Federal oil and gas leases.

(d) Benefit to the United States required

The Secretary may receive oil or gas royalties in-kind only if the Secretary determines that receiving royalties in-kind provides benefits to the United States that are greater than or equal to the benefits that are likely to have been received had royalties been taken in-value.

(e) Reports

(1) In general

Not later than September 30, 2006, the Secretary shall submit to Congress a report that addresses—

- (A) actions taken to develop business processes and automated systems to fully support the royalty-in-kind capability to be used in tandem with the royalty-in-value approach in managing Federal oil and gas revenue; and
- (B) future royalty-in-kind businesses operation plans and objectives.

(2) Reports on oil or gas royalties taken in-kind

For each of fiscal years 2006 through 2015 in which the United States takes oil or gas royalties in-kind from production in any State or from the outer Continental Shelf, excluding royalties taken in-kind and sold to refineries under subsection (h), the Secretary shall submit to Congress a report that describes—

(A) the 1 or more methodologies used by the Secretary to determine compliance with subsection (d), including the performance standard for comparing amounts received by the United States derived from royalties in-kind to amounts likely to have been received had royalties been taken in-value;

(B) an explanation of the evaluation that led the Secretary to take royalties in-kind from a lease or group of leases, including the expected revenue effect of taking royalties in-kind;

(C) actual amounts received by the United States derived from taking royalties in-kind and costs and savings incurred by the United States associated with taking royalties in-kind, including administrative savings and any new or increased administrative costs; and

(D) an evaluation of other relevant public benefits or detriments associated with taking royalties in-kind.

(f) Deduction of expenses

(1) In general

Before making payments under section 191 of title 30 or section 1337(g) of title 43 of revenues derived from the sale of royalty production taken in-kind from a lease, the Secretary shall deduct amounts paid or deducted under subsections (b)(4) and (c) and deposit the amount of the deductions in the miscellaneous receipts of the Treasury.

(2) Accounting for deductions

When the Secretary allows the lessee to deduct transportation or processing costs under subsection (c), the Secretary may not reduce any payments to recipients of revenues derived from any other Federal oil and gas lease as a consequence of that deduction.

(g) Consultation with States

The Secretary—

(1) shall consult with a State before conducting a royalty in-kind program under this part within the State;

(2) may delegate management of any portion of the Federal royalty in-kind program to the State except as otherwise prohibited by Federal law; and

(3) shall consult annually with any State from which Federal oil or gas royalty is being taken in-kind to ensure, to the maximum extent practicable, that the royalty in-kind program provides revenues to the State greater than or equal to the revenues likely to have been received had royalties been taken in-value.

(h) Small refineries

(1) Preference

If the Secretary finds that sufficient supplies of crude oil are not available in the open market to refineries that do not have their own source of supply for crude oil, the Secretary may grant preference to those refineries in the sale of any royalty oil accruing or reserved to the United States under Federal oil and gas leases issued under any mineral leasing law, for processing or use in those refineries at private sale at not less than the market price.

(2) Proration among refineries in production area

In disposing of oil under this subsection, the Secretary may, at the discretion of the Secretary, prorate the oil among refineries described in paragraph (1) in the area in which the oil is produced.

(i) Disposition to Federal agencies

(1) Onshore royalty

Any royalty oil or gas taken by the Secretary in-kind from onshore oil and gas leases may be sold at not less than the market price to any Federal agency.

(2) Offshore royalty

Any royalty oil or gas taken in-kind from a Federal oil or gas lease on the outer Continental Shelf may be disposed of only under section 1353 of title 43.

(j) Federal low-income energy assistance programs

(1) Preference

In disposing of royalty oil or gas taken in-kind under this section, the Secretary may grant a preference to any person, including any Federal or State agency, for the purpose of providing additional resources to any Federal low-income energy assistance program.

(2) Report

Not later than 3 years after August 8, 2005, the Secretary shall submit a report to Congress—

- (A) assessing the effectiveness of granting preferences specified in paragraph (1); and
- (B) providing a specific recommendation on the continuation of authority to grant preferences.

§ 15903. Marginal property production incentives

(a) Definition of marginal property

Until such time as the Secretary issues regulations under subsection (e) that prescribe a different definition, in this section, the term “marginal property” means an onshore unit, communitization agreement, or lease not within a unit or communitization agreement, that produces on average the combined equivalent of less than 15 barrels of oil per well per day or 90,000,000 British thermal units of gas per well per day calculated based on the average over the 3 most recent production months, including only wells that produce on more than half of the days during those 3 production months.

(b) Conditions for reduction of royalty rate

Until such time as the Secretary issues regulations under subsection (e) that prescribe dif-

ferent standards or requirements, the Secretary shall reduce the royalty rate on—

(1) oil production from marginal properties as prescribed in subsection (c) if the spot price of West Texas Intermediate crude oil at Cushing, Oklahoma, is, on average, less than \$15 per barrel (adjusted in accordance with the Consumer Price Index for all-urban consumers, United States city average, as published by the Bureau of Labor Statistics) for 90 consecutive trading days; and

(2) gas production from marginal properties as prescribed in subsection (c) if the spot price of natural gas delivered at Henry Hub, Louisiana, is, on average, less than \$2.00 per million British thermal units (adjusted in accordance with the Consumer Price Index for all-urban consumers, United States city average, as published by the Bureau of Labor Statistics) for 90 consecutive trading days.

(c) Reduced royalty rate

(1) In general

When a marginal property meets the conditions specified in subsection (b), the royalty rate shall be the lesser of—

- (A) 5 percent; or
- (B) the applicable rate under any other statutory or regulatory royalty relief provision that applies to the affected production.

(2) Period of effectiveness

The reduced royalty rate under this subsection shall be effective beginning on the first day of the production month following the date on which the applicable condition specified in subsection (b) is met.

(d) Termination of reduced royalty rate

A royalty rate prescribed in subsection (c)(1) shall terminate—

(1) with respect to oil production from a marginal property, on the first day of the production month following the date on which—

(A) the spot price of West Texas Intermediate crude oil at Cushing, Oklahoma, on average, exceeds \$15 per barrel (adjusted in accordance with the Consumer Price Index for all-urban consumers, United States city average, as published by the Bureau of Labor Statistics) for 90 consecutive trading days; or

(B) the property no longer qualifies as a marginal property; and

(2) with respect to gas production from a marginal property, on the first day of the production month following the date on which—

(A) the spot price of natural gas delivered at Henry Hub, Louisiana, on average, exceeds \$2.00 per million British thermal units (adjusted in accordance with the Consumer Price Index for all-urban consumers, United States city average, as published by the Bureau of Labor Statistics) for 90 consecutive trading days; or

(B) the property no longer qualifies as a marginal property.

(e) Regulations prescribing different relief

(1) Discretionary regulations

The Secretary may by regulation prescribe different parameters, standards, and require-

ments for, and a different degree or extent of, royalty relief for marginal properties in lieu of those prescribed in subsections (a) through (d).

(2) Mandatory regulations

Unless a determination is made under paragraph (3), not later than 18 months after August 8, 2005, the Secretary shall by regulation—

(A) prescribe standards and requirements for, and the extent of royalty relief for, marginal properties for oil and gas leases on the outer Continental Shelf; and

(B) define what constitutes a marginal property on the outer Continental Shelf for purposes of this section.

(3) Report

To the extent the Secretary determines that it is not practicable to issue the regulations referred to in paragraph (2), the Secretary shall provide a report to Congress explaining such determination by not later than 18 months after August 8, 2005.

(4) Considerations

In issuing regulations under this subsection, the Secretary may consider—

- (A) oil and gas prices and market trends;
- (B) production costs;
- (C) abandonment costs;
- (D) Federal and State tax provisions and the effects of those provisions on production economics;
- (E) other royalty relief programs;
- (F) regional differences in average well-head prices;
- (G) national energy security issues; and
- (H) other relevant matters, as determined by the Secretary.

(f) Savings provision

Nothing in this section prevents a lessee from receiving royalty relief or a royalty reduction pursuant to any other law (including a regulation) that provides more relief than the amounts provided by this section.

(Pub. L. 109–58, title III, §343, Aug. 8, 2005, 119 Stat. 700.)

(a) Royalty incentive regulations for ultra deep gas wells

(1) In general

Not later than 180 days after August 8, 2005, in addition to any other regulations that may provide royalty incentives for natural gas produced from deep wells on oil and gas leases issued pursuant to the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.), the Secretary shall issue regulations granting royalty relief suspension volumes of not less than 35 billion cubic feet with respect to the production of natural gas from ultra deep wells on leases issued in shallow waters less than 400 meters deep located in the Gulf of Mexico wholly west of 87 degrees, 30 minutes west longitude. Regulations issued under this subsection shall be retroactive to the date that

the notice of proposed rulemaking is published in the Federal Register.

(2) Suspension volumes

The Secretary may grant suspension volumes of not less than 35 billion cubic feet in any case in which—

(A) the ultra deep well is a sidetrack; or

(B) the lease has previously produced from wells with a perforated interval the top of which is at least 15,000 feet true vertical depth below the datum at mean sea level.

(3) Definitions

In this subsection:

(A) Ultra deep well

The term “ultra deep well” means a well drilled with a perforated interval, the top of which is at least 20,000 feet true vertical depth below the datum at mean sea level.

(i) In general

The term “sidetrack” means a well resulting from drilling an additional hole to a new objective bottom-hole location by leaving a previously drilled hole.

(ii) Inclusion

The term “sidetrack” includes—

(I) drilling a well from a platform slot reclaimed from a previously drilled well;

(II) re-entering and deepening a previously drilled well; and

(b) Suspension of royalties**(1) In general**

The Secretary may grant royalty relief in accordance with this section for natural gas produced from gas hydrate resources under an eligible lease.

(2) Eligible leases

A lease shall be an eligible lease for purposes of this section if—

- (C) production under the lease of natural gas from gas hydrate resources commences prior to January 1, 2018.

(3) Amount of relief

The Secretary shall conduct a rulemaking and grant royalty relief under this section as a suspension volume if the Secretary determines that such royalty relief would encourage production of natural gas from gas hydrate resources from an eligible lease. The maximum suspension volume shall be 30 billion cubic feet of natural gas per lease. Such relief shall be in addition to any other royalty relief under any other provision applicable to the lease that does not specifically grant a gas hydrate production incentive. Such royalty suspension volume shall be applied to any eligible production occurring on or after the date of publication of the advanced notice of proposed rulemaking.

(4) Limitation

The Secretary may place limitations on royalty relief granted under this section based on market price.

(c) Application

§ 15910. Enhanced oil and natural gas production through carbon dioxide injection

(a) Production incentive

(1) Findings

Congress finds the following:

(A) Approximately two-thirds of the original oil in place in the United States remains unproduced.

(B) Enhanced oil and natural gas production from the sequestering of carbon dioxide and other appropriate gases has the potential to increase oil and natural gas production.

(C) Capturing and productively using carbon dioxide would help reduce the carbon intensity of the economy.

(2) Purpose

The purpose of this section is—

(A) to promote the capturing, transportation, and injection of produced carbon dioxide, natural carbon dioxide, and other appropriate gases or other matter for sequestration into oil and gas fields; and

(B) to promote oil and natural gas production from the outer Continental Shelf and onshore Federal lands under lease by providing royalty incentives to use enhanced recovery techniques using injection of the substances referred to in subparagraph (A).

(b) Suspension of royalties

(1) In general

If the Secretary determines that reduction of the royalty under a Federal oil and gas lease that is an eligible lease is in the public interest and promotes the purposes of this sec-

tion, the Secretary shall undertake a rulemaking to provide for such reduction for an eligible lease.

(2) Rulemakings

The Secretary shall publish the advanced notice of proposed rulemaking within 180 days after August 8, 2005, and complete the rulemaking implementing this section within 365 days after August 8, 2005.

(3) Eligible leases

A lease shall be an eligible lease for purposes of this section if—

(A) it is a lease for production of oil and gas from the outer Continental Shelf or Federal onshore lands;

(B) the injection of the substances referred to in subsection (a)(2)(A) will be used as an enhanced recovery technique on such lease; and

(C) the Secretary determines that the lease contains oil or gas that would not likely be produced without the royalty reduction provided under this section.

(4) Amount of relief

The rulemaking shall provide for a suspension volume, which shall not exceed 5,000,000 barrels of oil equivalent for each eligible lease. Such suspension volume shall be applied to any production from an eligible lease occurring on or after the date of publication of any advanced notice of proposed rulemaking under this subsection.

- (B) give priority consideration to applications that—
 - (i) are most likely to maximize production of oil and gas in a cost-effective manner;
 - (ii) sequester significant quantities of carbon dioxide from anthropogenic sources;
 - (iii) demonstrate the greatest commitment on the part of the applicant to ensure funding for the proposed project and the greatest likelihood that the project will be maintained or expanded after Federal assistance under this section is completed; and

PART D—REFINERY REVITALIZATION

§ 15951. Findings and definitions

(a) Findings

Congress finds that—

(1) it serves the national interest to increase petroleum refining capacity for gasoline, heating oil, diesel fuel, jet fuel, kerosene, and petrochemical feedstocks wherever located within the United States, to bring more supply to the markets for the use of the American people;

(2) United States demand for refined petroleum products currently exceeds the country’s petroleum refining capacity to produce such products;

(3) this excess demand has been met with increased imports;

(4) due to lack of capacity, refined petroleum product imports are expected to grow from 7.9 percent to 10.7 percent of total refined product by 2025;

(5) refiners are still subject to significant environmental and other regulations and face several new requirements under the Clean Air Act (42 U.S.C. 7401 et seq.) over the next decade; and

(6) better coordination of Federal and State regulatory reviews may help facilitate siting and construction of new refineries to meet the demand in the United States for refined products.

(b) Definitions

In this part:

(1) Administrator

The term “Administrator” means the Administrator of the Environmental Protection Agency.

(2) State

The term “State” means—

- (A) a State;
 - (B) the Commonwealth of Puerto Rico; and
 - (C) any other territory or possession of the United States.
- (Pub. L. 109–58, title III, §391, Aug. 8, 2005, 119 Stat. 748.)

For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

§ 15952. Federal-State regulatory coordination and assistance

(a) In general

At the request of the Governor of a State, the Administrator may enter into a refinery permitting cooperative agreement with the State, under which each party to the agreement identifies steps, including timelines, that it will take to streamline the consideration of Federal and State environmental permits for a new refinery.

(b) Authority under agreement

The Administrator shall be authorized to—

- (1) accept from a refiner a consolidated application for all permits required from the Environmental Protection Agency, to the extent consistent with other applicable law;
- (2) enter into memoranda of agreement with other Federal agencies to coordinate consideration of refinery applications and permits among Federal agencies; and
- (3) enter into memoranda of agreement with a State, under which Federal and State review of refinery permit applications will be coordinated and concurrently considered, to the extent practicable.

(c) State assistance

The Administrator is authorized to provide financial assistance to State governments to facilitate the hiring of additional personnel with expertise in fields relevant to consideration of refinery permits.

(d) Other assistance

The Administrator is authorized to provide technical, legal, or other assistance to State governments to facilitate their review of applications to build new refineries.

PART C—GEORGE E. BROWN, JR. NEAR-EARTH OBJECT SURVEY

§ 16691. George E. Brown, Jr. Near-Earth Object Survey

(a) Short title

This section may be cited as the “George E. Brown, Jr. Near-Earth Object Survey Act”.

(b) Findings

The Congress makes the following findings:

(1) Near-Earth objects pose a serious and credible threat to humankind, as many scientists believe that a major asteroid or comet was responsible for the mass extinction of the majority of the Earth’s species, including the dinosaurs, nearly 65,000,000 years ago.

(2) Similar objects have struck the Earth or passed through the Earth’s atmosphere several times in the Earth’s history and pose a similar threat in the future.

(3) Several such near-Earth objects have only been discovered within days of the objects’ closest approach to Earth, and recent discoveries of such large objects indicate that many large near-Earth objects remain undiscovered.

(4) The efforts taken to date by NASA for detecting and characterizing the hazards of near-Earth objects are not sufficient to fully determine the threat posed by such objects to cause widespread destruction and loss of life.

(c) Definitions

For purposes of this section the term “near-Earth object” means an asteroid or comet with a perihelion distance of less than 1.3 Astronomical Units from the Sun.

(d) Near-Earth Object Survey**(1) Survey program**

The Administrator shall plan, develop, and implement a Near-Earth Object Survey program to detect, track, catalogue, and characterize the physical characteristics of near-Earth objects equal to or greater than 140 meters in diameter in order to assess the threat of such near-Earth objects to the Earth. It shall be the goal of the Survey program to achieve 90 percent completion of its near-Earth object catalogue (based on statistically predicted populations of near-Earth objects) within 15 years after December 30, 2005.

(2) Omitted**(3) Fifth-year report**

The Administrator shall transmit to the Congress, not later than February 28 of the fifth year after December 30, 2005, a report that provides the following:

(A) A summary of all activities taken pursuant to paragraph (1) since December 30, 2005.

(B) A summary of expenditures for all activities pursuant to paragraph (1) since December 30, 2005.

(4) Initial report

The Administrator shall transmit to Congress not later than 1 year after December 30, 2005, an initial report that provides the following:

(A) An analysis of possible alternatives that NASA may employ to carry out the Survey program, including ground-based and space-based alternatives with technical descriptions.

(B) A recommended option and proposed budget to carry out the Survey program pursuant to the recommended option.

(C) Analysis of possible alternatives that NASA could employ to divert an object on a likely collision course with Earth.

§ 16985. Grants for Rape, Abuse & Incest National Network

(a) Findings

Congress finds as follows:

- (1) More than 200,000 Americans each year are victims of sexual assault, according to the Department of Justice.
- (2) In 2004, 1 American was sexually assaulted every 2.5 minutes.
- (3) One of every 6 women, and 1 of every 133 men, in America has been the victim of a completed or attempted rape, according to the Department of Justice.
- (4) The Federal Bureau of Investigation ranks rape second in the hierarchy of violent

crimes for its Uniform Crime Reports, trailing only murder.

(5) The Federal Government, through the Victims of Crime Act [42 U.S.C. 10601 et seq.], Violence Against Women Act, and other laws, has long played a role in providing services to sexual assault victims and in seeking policies to increase the number of rapists brought to justice.

(6) Research suggests that sexual assault victims who receive counseling support are more likely to report their attack to the police and to participate in the prosecution of the offender.

(7) Due in part to the combined efforts of law enforcement officials at the local, State, and Federal level, as well as the efforts of the Rape, Abuse & Incest National Network (RAINN) and its affiliated rape crisis centers across the United States, sexual violence in America has fallen by more than half since 1994.

(8) RAINN, a 501(c)(3) nonprofit corporation headquartered in the District of Columbia, has since 1994 provided help to victims of sexual assault and educated the public about sexual assault prevention, prosecution, and recovery.

(9) RAINN established and continues to operate the National Sexual Assault Hotline, a free, confidential telephone hotline that provides help, 24 hours a day, to victims nationally.

(10) More than 1,100 local rape crisis centers in the 50 States and the District of Columbia partner with RAINN and are members of the National Sexual Assault Hotline network (which has helped more than 970,000 people since its inception in 1994).

(11) To better serve victims of sexual assault, 80 percent of whom are under age 30 and 44 percent of whom are under age 18, RAINN will soon launch the National Sexual Assault Online Hotline, the web's first secure hotline service offering live help 24 hours a day.

(12) Congress and the Department of Justice have given RAINN funding to conduct its crucial work.

(13) RAINN is a national model of public/private partnership, raising private sector funds to match congressional appropriations and receiving extensive private in-kind support, including advanced technology provided by the communications and technology industries to launch the National Sexual Assault Hotline and the National Sexual Assault Online Hotline.

(14) Worth magazine selected RAINN as one of "America's 100 Best Charities", in recognition of the organization's "efficiency and effectiveness."¹

(15) In fiscal year 2005, RAINN spent more than 91 cents of every dollar received directly on program services.

(16) The demand for RAINN's services is growing dramatically, as evidenced by the fact that, in 2005, the National Sexual Assault Hotline helped 137,039 people, an all-time record.

(17) The programs sponsored by RAINN and its local affiliates have contributed to the in-

¹ So in original. The second period probably should not appear.

crease in the percentage of victims who report their rape to law enforcement.

(18) According to a recent poll, 92 percent of American women said that fighting sexual and domestic violence should be a top public policy priority (a higher percentage than chose health care, child care, or any other issue).

(19) Authorizing Federal funds for RAINN's national programs would promote continued progress with this interstate problem and would make a significant difference in the prosecution of rapists and the overall incidence of sexual violence.

§ 16989. Fugitive Safe Surrender

(a) Findings

Congress finds the following:

(1) Fugitive Safe Surrender is a program of the United States Marshals Service, in partnership with public, private, and faith-based organizations, which temporarily transforms a church into a courthouse, so fugitives can turn themselves in, in an atmosphere where they feel more comfortable to do so, and have non-violent cases adjudicated immediately.

(2) In the 4-day pilot program in Cleveland, Ohio, over 800 fugitives turned themselves in. By contrast, a successful Fugitive Task Force sweep, conducted for 3 days after Fugitive Safe Surrender, resulted in the arrest of 65 individuals.

(3) Fugitive Safe Surrender is safer for defendants, law enforcement, and innocent bystanders than needing to conduct a sweep.

(4) Based upon the success of the pilot program, Fugitive Safe Surrender should be expanded to other cities throughout the United States.

(b) Establishment

The United States Marshals Service shall establish, direct, and coordinate a program (to be known as the “Fugitive Safe Surrender Program”), under which the United States Marshals Service shall apprehend Federal, State, and local fugitives in a safe, secure, and peaceful manner to be coordinated with law enforcement and community leaders in designated cities throughout the United States.

(c) Authorization of appropriations

There are authorized to be appropriated to the United States Marshals Service to carry out this section—

- (3) \$8,000,000 for fiscal year 2009.

(d) Other existing applicable law

Nothing in this section shall be construed to limit any existing authority under any other provision of Federal or State law for law enforcement agencies to locate or apprehend fugitives through task forces or any other means.
